Conditions of Approval

1. Proof of application of water to beneficial use shall be submitted on or before **December 01, 2026**.
2. Subject to all prior water rights.
3. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
4. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 2.
5. When notified by the Department, the right holder shall install and maintain a measuring device of a type acceptable to the Department as part of the diverting works.
6. Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the watermaster suitable control of the diversion.
7. This right is for the use of trust water, and it is subject to review 5 years after its initial approval (date of permit approval) to re-evaluate the availability of trust water for the authorized use and to re-evaluate the public interest criteria for reallocating trust water.
8. When the minimum stream flow water rights in the Snake River at Murphy Gage are not being satisfied, the right holder shall cease diverting water for the consumptive uses authorized by this right. The minimum stream flow water rights are for 3,900 cfs from April 1 through October 31 and 5,600 cfs from November 1 through March 31. See IDAPA 37.03.08.030.

Permit to Appropriate Water
No. 57-12073

9. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.

This permit is issued pursuant to the provisions of Idaho Code § 42-204.

Signed this 24th day of November, 2021.

RE: Permit No. 57-12073

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water permit to maintain current ownership and address records on file with the Department. Forms to file an assignment of permit and/or a change in the address of the permit owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the enclosed information, please contact me at (208) 334-2190.

Sincerely,

DENISE LAUERMAN

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Application for Permit to Appropriate Trust Water – No. 57-12073

Dear Applicant:

The Department of Water Resources ("Department") has received your application for permit to appropriate water and has accepted it for filing. Your application has been assigned the identification number referenced in the subject line of this letter. Please refer to that number in all future correspondence regarding this application.

Your application proposes to appropriate Trust Water as described in this letter. The special nature of the trust affects how the Department will process your application as well as some aspects of the water right that may result. The purpose of this letter is to inform you of three items specific to applications proposing to appropriate Trust Water:

1. Your application will be subject to additional evaluation compared to applications that do not propose the use of Trust Water. This may require you to submit additional information and to demonstrate that your application meets the statutory evaluation criteria for appropriating Trust Water.
2. If a water right is issued to you, it could be subject to curtailment to satisfy senior minimum stream flow water rights on the Snake River at the Murphy Gage.
3. If a water right is issued to you, it will be subject to a periodic term review that may impact the future use of the right.

To understand better these three items and why they apply to your application, it helps to understand what Trust Water is and how it came about.

Trust Water arose from the 1984 Swan Falls Settlement between Idaho Power Company ("IPC") and the State of Idaho ("State").¹ Prior to the Swan Falls Settlement, the Idaho Supreme Court determined IPC held water rights for use at Swan Falls Dam that exceeded the entire flow of the Snake River at times. This limited future upstream development of water resources in the Snake River Basin. The Swan Falls Settlement resulted in changes to Idaho Law² and to IPC's water rights. As a result of the Swan Falls Settlement and subsequent legislation and court decrees, IPC's hydropower water rights in excess of the minimum flows at Murphy Gage are held in trust by the State. This change allows future development using water that would have previously been delivered to satisfy IPC water rights at Swan Falls Dam and, therefore, would have been unavailable for upstream appropriation. The purpose of this trust is defined in Idaho Code § 42-203B as follows:

The purposes of the trust established by ... this section are to assure an adequate supply of water for all future beneficial uses and to clarify and protect the right of a user of water for power purposes ... to continue using the water pending approval of depletionary future beneficial uses.

Your application proposes a use of water that could deplete the rights placed in trust, so the State, through the Department must evaluate your proposal under the laws and rules that came after the Swan Falls Settlement.³ In addition to the usual statutory process and evaluation criteria, the Department must also evaluate whether your application will deplete Trust Water and, if so, whether your depletion of Trust Water is in the public interest.

In addition, the availability of Trust Water and the public's interest in the use of Trust Water could change over time. The Department will periodically review rights to use Trust Water to determine if Trust Water remains available for use and if the continued use of Trust Water is in the public interest. The periodic review will occur for any right that issues from your application. A future review by the Department could terminate or limit your ability to use the right in the future.

An important aspect of the Swan Falls Settlement is that the State agreed to protect the minimum stream flows in the Snake River at the Murphy Gage. Should the flows at the Murphy Gage fall below these minimums, the water rights that use Trust Water could be curtailed to restore flow to meet those minimums.

The Department will hold your application for 14 days to allow you time to contact us if you have further questions on this topic or if you choose to withdraw your application. Your application is currently in advertising. If the Department does not hear from you

¹ For more information, including a more complete description of the Swan Falls Settlement and resulting legislation, please see the Department's web page: <https://idwr.idaho.gov/legal-actions/settlements/swan-falls/>.

² Although several sections of the Idaho Code were affected, the addition of Sections 42-203B and 42-203C, Idaho Code are the changes most relevant to this discussion.

³ See Sections 42-203C and the Department's Water Appropriation Rules (IDAPA 37.03.08).

within 14 days, the Department will continue processing your application. Refunds are not available if an application is withdrawn after advertising.

Please contact this office if you have questions regarding this matter.

Sincerely,

RE: Application for Permit No. 57-12073

Dear Interested Party:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from your organization regarding the above referenced water right application. You can find a copy of the application at: <https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx> Please review the application, complete the enclosed recommendation form, and submit it to this office within 21 days of the date of this letter.

IDWR can finish reviewing an unprotested application as soon as the protest period has passed. Therefore, your prompt response to this request is appreciated. If your organization desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication.

Please contact this office if you have any questions regarding the application.

Sincerely,

Denise Lauerman
Administrative Assistant
