EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: November 23, 2021
To: Transfer 84873 File
From: Bill Mills
Re: Evaluation of Sufficiency of Information Submitted

Application proposes changing five Big Wood River rights and one ground water right (totaling 0.375 cfs) currently used to irrigate 5 acres located approximately 2.5 to 2.6 miles south and 0.4 to 0.5 miles south of Bellevue to recreation storage uses associated with an existing water storage facility located approximately 2.7 to 3.2 miles south and 0.2 to 0.3 miles east of Bellevue. The application proposes changing the ground water right's point of diversion from the current location approximately 2.5 miles south and 0.8 miles east of Bellevue to a proposed well near the storage facility location approximately 2.7 to 3.2 miles south and 0.2 to 0.3 miles east of Bellevue. The five Big Wood River rights will continue to be diverted at the District Canal near Bellevue.

The change in nature of use analysis from irrigation to recreation storage was based on an acre to volume conversion utilizing the precipitation deficit value for high management pasture grass (2.31 acre-feet per acre a year). There may have been a question concerning the validity of these water rights as the parcel they are appurtenant to does not appear to have been irrigated (beyond 0.5 acres) in available aerial imagery. However, all of the rights in the transfer were decreed in 2010 and have been leased to the water supply bank since 2016. Since these rights have been protected from forfeiture since their decree date, the change in nature of use analysis is acceptable and the volume has been reduced by 5.9 acre feet in the conversion process.

It should be noted that the transfer application indicates the well to be used for diverting the water at the new location is an existing well. However, correspondence from the applicant's representative indicated the well is proposed (see email correspondence from Zach Latham dated 4/13/2021), and the well was advertised as a proposed well, although the transfer application was not updated to reflect that change. Additionally, the wells location was listed as in the NWNENE of Sec.13, Twp 01N, Rge 18E on the transfer application. Email correspondence from the applicant's representative indicated this was the wrong 10 acre tract designation and it was actually planned to be located in the SWNENE (see email from Zach Latham dated 4/7/2021). Then it was requested that we drop the 10 acre description altogether (see email from Zach Latham dated 4/8/2021 and updated map attachment #7a). Again, the transfer application was not updated to reflect those requested changes (although map attachment #7a was). However, the advertising described the updated proposed well location, and the transfer data entry reflects those changes also.

There was a pending Water Supply Bank (WSB) lease for these water rights at the time the transfer application was submitted. The lease proposed to utilize the water right's in the same manner the transfer application proposed. After contacting the WSB, it was decided the lease should be put on hold and then move forward with processing the transfer (email dated 4/14/2021).

All PODs and POU's are in Water District 37 and Watermaster comments were solicited, and no comments were received.

The transfer was protested, and the protests were resolved and withdrawn through a stipulated agreement that requests specific conditions be placed on the water rights in the transfer.

- **Authority to File:** Applicants are listed as the current owners of all water rights included in this transfer. A contract of sale was provided indicating the owners of the recreation storage facility will file for change of ownership of the water rights in this transfer after the transfer is approved.
- **Water Right Validity:** All water rights in this transfer were decreed in the SRBA prior to 9/25/2010. The water rights have been leased to the water supply bank since 2016 and as such, are currently protected from forfeiture.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
There is a decrease in volume as a result of the change in nature of use process which precludes potential enlargement of the changed portion of the water right.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated.
- **Effect on Agricultural Base of the Local Economy:**
None Anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing
