

To whom it may concern:

Re: Teton Island Feeder Canal transfer application 85456

The Sugar Salem Moody Cemetery District hereby gives the Teton Island Feeder Canal legal access to the pump and pump house at its point of diversion along the south bank of the Teton River. This point of diversion has been in place since the Teton Dam flood of June 5, 1976.

The cemetery property is open and available to the public from daylight until dark every day. The canal company and department of water resources have permissive use to access the pump and pump house across the cemetery property for any duly authorized business pertaining to this point of diversion.

Dated this 1st day of November, 2021.

SUGAR SALEM MOODY CEMETERY DISTRICT
