Re: Change in Ownership for Water Right No(s): 36-2307, 36-2146, 36-4137, & 36-8051

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Please note, Idaho Ag Credit FLCA is identified as a security interest holder on these water rights. If this is no longer correct, it can be removed from the rights upon written notice from the security interest holder that the interest has terminated. Also note that the ownership change for right 36-11001 was not processed because the right was specifically retained by the grantor in the conveyance document. No fee was paid for that right, so no refund of the fee is forthcoming. Additionally, Brockway Engineering is listed as the representative on right 36-2146. You may also wish to update that status if necessary.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 293-9909.

Sincerely,

Jim Bitzenburg
Senior Water Resource Agent
