Jean,

I have attached an updated pdf. The red dot is where the well is located. You were right it was really off. Thanks for all your help.

Sincerely,

Dear Permit holders:

The Department of Water Resources is in the process of reviewing your permit for licensing. I am trying to pinpoint the actual location of your well for our records. I have attached a map for your convenience. There is a green dot on the map that represents the GPS location on your well drillers report. However, the GPS locations can be off due to the trees and where the driller stood when taking the GPS location. Please mark on this map the location of your well and return to me within 14 days so I can continue to process the permit for licensing. Let me know if you have any questions. Thank you.
