RE: Pending Notice of Violation (“PNOV”) and Request to Cease and Desist Unauthorized Diversion and Irrigation, Case No. E2021-2746

Dear Mr. Hubsmith:

The Idaho Department of Water Resources (Department) has been in contact with you recently regarding observed discrepancies between the acreage authorized for irrigation under water right #37-472 (48.8 acres) and the acreage actually irrigated during the summer of 2020 (60.3 acres). That’s an excess of 11.5 acres. Figure 1, the map on page 2, illustrates the Place of use (POU) for water right 37-472 as compared to the area actually irrigated (subject lands).

The Department provides this notice to advise you that 1) the Department has concluded that 60.3 acres at the subject lands were irrigated in 2020; 2) there were no known authorizations in place to irrigate 11.5 of these acres; 3) the unauthorized diversion and use of water are a violation of Idaho Code § 42-351; and 4) a comparable excess of irrigated acreage was observed at the subject lands during the summer of 2021. Consequently, the Department requests that you immediately cease and desist irrigating lands that exceed the authorized acres for water right 37-472.

Please contact me on or before September 15th, 2021 to confirm that irrigation of the unauthorized acres has stopped immediately following receipt of this letter. Subsequent to your response, the Department will determine whether to issue a formal Notice of Violation, per § 42-1701B, that may include civil penalties and mitigation requirements. You may contact me directly 208-287-4944 or via email at cherie.palmer@idwr.idaho.gov. Your help in clarifying the issues above is appreciated.

Respectfully,

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

From: Jim Bitzenburg
Re: Evaluation of Sufficiency of Information Submitted

Application for transfer proposes to change the place of use (POU) for Little Wood River irrigation right 37-472 (1.20 cfs) which currently irrigates 48.9 acres of ground located approximately 1.6 miles west and 1.0 mile south of Richfield. The proposed POU will modify the existing POU to reflect changes in the irrigation system.

The transfer is in Water District 37, so Watermaster comments were solicited and the Watermaster had no comments regarding the application. Advertising was not necessary because the transfer will only change the POU of land contiguous to the present POU.

- **Authority to File:**
The Department's database indicates that water right 37-472 is owned by the applicants, Rodney and Kaysi Hubsmith. The application was signed by the Hubsmiths.
- **Water Right Validity:**
The water right was decreed in the SRBA in 2006, and ample irrigation is evident at the current POU, so forfeiture is likely not an issue.
- **Injury to Other Water Rights:**
None anticipated or foreseen. The POD is not moving and there is no increase in volume or acres.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated
- **Effect of the Agricultural Base of the Area:**
None Anticipated

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Legal Notice Not Required

Legal Notice Not Required
9/27/2021

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

The transfer is only changing the POU of contiguous lands.

TRANSFER SYNOPSIS

Date: September 27, 2021
To: Transfer #85326, Rodney and Kaysi Hubsmith Transfer file
From: Jim Bitzenburg
Re: Summary of transfer

Application for transfer proposes to change the place of use (POU) for Little Wood River irrigation right 37-472 (1.20 cfs) which currently irrigates 48.9 acres of ground located approximately 1.6 miles west and 1.0 mile south of Richfield. The proposed POU will modify the existing POU to reflect changes in the irrigation system.

The transfer is in Water District 37 so Watermaster comments will be solicited. Advertising is not necessary because the transfer will only change the POU of land contiguous to the present POU.

To: Rodney and Kaysi Hubsmith Transfer #85326 File
From: Jim Bitzenburg
Re: Receipting/disposition of fees paid

This transfer was filed on September 17, 2021, and its purpose is to change the place of use for an irrigation water right diverted out of the Little Wood River. The number of acres changing was 6.3 before the amendment, and 5.4 after, and in both cases the flow rate changing was less than 0.20 cfs, so the corresponding fee from the transfer fee schedule is \$200.00. The fee was paid by check #4863 from Rodney and Kaysi Hubsmith at the time of filing. The IDWR receipt number is S038836.

I talked to Corey about how to best handle the changes to the transfer application, and his thought was to make the changes in our transfer program, then send you a new application with the information from the one you submitted. You can print it out, sign, and either drop it by, or mail it in. I'll include a new map based on the ones I sent to you yesterday afternoon. All of the information will be the same, except for the map and the place of use chart. I have to be out of the office this afternoon, but I'll try to get it emailed up there tomorrow. Thanks for your help.

Here are some more maps of the irrigated acres- one map of the entire POU and three others breaking it down into more detailed maps. I used all 48.9 acres, so the only way to cover the flood irrigated ground that isn't covered in the NESW is to cut out some of the flood irrigated ground down there that we have now included in the POU. Let me know what you think.
