PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 29-14309

Dear Permit Holders:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. A condition of this permit may not have been complied with according to the information you have provided on your proof form.

Condition no. 5 of this permit states:

"Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.

You must comply with conditions of the permit without delay and prior to the field examination. I have enclosed a copy of this permit for your information. If you feel the condition is unnecessary you may submit a written request to the department asking the requirement be waived. If your permit is subject to a water district you must also provide a written agreement from the watermaster that the requirement may be waived. The department will consider your request and the watermaster's comments and may issue an order waiving the requirements at this time.

The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Eastern Region Office of the Department located in Idaho Falls at (208) 525-7161.

Sincerely,

Debbi Judd
