 ☐ \$100 per *split* water right.
 ☐ No fee is required for pending adjudication claims.
☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 605-4629.

Sincerely,

Aaron Olson
Water Resource Agent

Version 2 created due to objection settlement.

2. csaxton 9/26/2008 Remove K06
Ted Booth e-mailed me on 9-26-08 and asked if he could remove the K06 remark. After looking at it I could see that the K06 remark was redundant and could be deleted without changing the water right so I e-mailed him back and told him he could remove it. I am going to assume he did, but will set a reminder to check the special master report and make sure it is gone.

4. K06 This right is limited to the irrigation of 50.0 acres within the place of use described above in a single irrigation season.

Comments:

1. csaxton 6/30/2006 POU
Place of use claimed as 88 acres but only 66.4 acres can be irrigated with 67-406 and 67-407 so the recommended POU was cut down. However, it was hard to determine what was irrigated and what was not. Contour lines were used to help determine POU.
2. csaxton 6/30/2006 Water Master Notes
WM notes indicate that ditch can not carry more water than decreed.
3. csaxton 6/30/2006 Source
Source decreed as Hornet creek but claimed as Lakey Creek. Water Master delivery records show delivery from Lakey Creek and notes say that it has always been delivered from Lakey creek. Since there are no other decreed rights from Lakey creek it is reasonable to assume that at the time of the decree, they did not distinguish a difference between Hornet Creek and Lakey Creek. Recommend source as Lakey and do not recognize as C02.
4. csaxton 10/8/2008 Post DR change
Changed limiting remark to say 66 acres instead of 66.4 per discussion with Special Master Booth (csaxton 10-18-08)
