DEPARTMENT OF WATER RESOURCES

Notice of Change in Water Right Ownership

1. List the numbers of all water rights and/or adjudication claim records to be changed. If you only acquired a portion of the water right or adjudication claim, check "Yes" in the "Split?" column. If the water right is leased to the Water Supply Bank, check "Yes". If you are not sure if the water right is leased to the Water Supply Bank, see #6 of the instructions.

4. If the water rights and/or adjudication claims were split, how did the division occur?
☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
5. Date you acquired the water rights and/or claims listed above: MARCH 23, 2021
6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed [IRS Form W-9](#) for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed [Lessor Designation](#) form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).
7. This form must be signed and submitted with the following **REQUIRED** items:
☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
☒ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
☒ Filing fee (see instructions for further explanation): \$50
 o \$25 per undivided water right.
 o \$100 per split water right.
 o No fee is required for pending adjudication claims.
☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

NARRATIVE

The purpose of this survey was to retrace the boundaries of Warranty Deed Instrument Numbers 161776 and 97153. Maps of record and not of record used in this survey were as follows: Grimes Pass Power Station Area Survey by Henry Hamming July 28, 1927 (not recorded) which shows what I believe to be the boundaries of the Power House Mill Site, the Center Line of the Dam, the backwater floodway boundary and lands used for housing of the Dam staff. There is no legend on the map, but we did find several monuments of the same nature that I believe were set by Hamming in the course of his survey. This map establishes the boundaries for 554 South Fork Road. We also used a survey by Clyde Porter August 12, 1980 (not recorded) which is a retracement of the Grimes Pass Power Station Area Survey, The Map of Lots 5, 6, 7, 8, Section 10 by C.L. Sullivan December 1980 recorded as Instrument No. 184921 show parcels of land divided from within Lot 6. The Record of Survey for John Wasson by James V. Potter November 1984 recorded as Instrument No. 115923 shows all the lands north of the S 1/16 line to the river for out a development that is within the bounds of 534 South Fork Road, for land north of South Fork Road. There were several monuments shown on the plat that were found and shown on this survey. The Grimes Pass Power Site Survey by Richard A. Johnson January 1, 1995 creates parcels east of 554 South Fork Road. The Center Line Survey along Wasson Road, aka South Fork Road by Richard A. Johnson recorded as Instrument No. 166999, used to establish easements along the roadway. And the Dependent Resurvey Sectional Subdivision of Section 10 by Randall J. Peppersack April 10, 2019, U.S. Forest Service.

We retraced the East and West 1/4 corners and the Meander Corners north of them to re-establish the 1939 GLO Meander line. Sectional monuments were found and held per the corner records and surveys used. We found most of the boundary monuments and held their position. The GLO Meander Line is shown for context. The IDOIT, Ranch Subdivision Meander Line monuments were not found at the east and west end. This line is used to represent the Mean High Water Line of the river in the area of the preliminary plat. There was no conflict with any adjoiners.

NOTES

1. THE RECORDING OF THIS RECORD OF SURVEY DOES NOT ENABLE THE OWNERS OF THE PARCELS TO CONVEY OWNERSHIP BASED SOLELY ON THIS MAP. A WRITTEN CONVEYANCE MUST ACCOMPANY SUCH CHANGE IN OWNERSHIP. THIS RECORD OF SURVEY DOES NOT SERVE AS A LEGAL DESCRIPTION FOR THE PROPERTY SHOWN ON THIS MAP.
2. FOX LAND SURVEYS, INC., ASSUMES NO LIABILITY FOR CURRENT OR FUTURE COMPLIANCE WITH APPLICABLE PLANNING AND ZONING ORDINANCES AND/OR RESTRICTIONS.

Re: Change in Water Right Ownership: 65-5657 A (Split into 65-5657 A and 65-24072),

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 605-4633.

Sincerely,
Laura McSherry

RE: Water Right No(s): 65-05657A

Dear Interested Parties:

The Department of Water Resources Western Office acknowledges receipt of your Notice of Change in Water Right Ownership.

Review of your Notice indicates that additional information is required before the Department can process the change. The information required is indicated below:

- ☐ Filing Fee of \$25 per water right
- ☒ Filing Fee of \$100 per water right for changes resulting from division of a water right
- ☐ Signature
- ☐ Notarized Signature for Assignment of Permit
- ☐ Evidence of Water Right Ownership: copy of Deed, Title Policy, Contract of Sale, or other legal document indicating your ownership of the property and/or water rights in question
- ☐ Evidence of Security Interest: copy of Deed of Trust, Mortgage, Contract of Sale or other legal document indicating your interest in the property and water rights in question
- ☐ Security Interest Expiration Date
- ☐ Legal Description of Property
- ☐ Plat of Property or Survey Map usually on file with the county
- ☐ USDA Farm Service Agency (formerly ASCS) Aerial Photo with irrigated acres outlined and point(s) of diversion clearly marked
- ☐ Description of Portion of Water Right resulting from division of water right

Effective July 1, 2000, the legislature enacted House Bill No. 545 requiring a filing fee for a change in water right ownership. The fee is \$25 per water right, except for ownership changes resulting in the division of a water right, which is \$100 per water right. All ownership change notices received after June 30, 2000 must include the appropriate filing fees in order to be processed. We have determined that the total filing fee for your notice will be \$100. Partial payment of \$25 was received and the remaining \$75 is due to process the notice.

Because the Department cannot process the notice without the proper fees, we will hold any action on your notice pending receipt of the necessary fees. If we do not receive the necessary fees within 30 days we will return your notice and all attachments and your notice will not be processed.

If you have any questions regarding this matter, please contact our office at (208) 334-2190.

Sincerely,

Western Regional Office
Idaho Department of Water Resources
