42-222 POD - 07/18

SEP 22 2021

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCESAPPLICATION FOR TRANSFER OF WATER RIGHT – POINT(S) OF DIVERSION
IDWR/NORTH

This form may be used to apply to change and/or add points of diversion for existing water rights and to report an ownership change for a water right(s) in connection with the proposed point of diversion change(s). Do not use this form to apply for changes to other elements of a water right. See the [Application for Transfer Instructions](#) for help completing this form and for mailing addresses of Department offices where your application can be submitted.

Check all that apply:

- ☒ Change diversion point(s) ☒ Add diversion point(s) ☐ Ownership change ☐ Ownership split
☐ Transfer is for changes pursuant to [Idaho Code § 42-221.O.8](#). Attach an explanation and any supporting documentation.

1. APPLICANT(S) GREENFERRY WATER & SEWER DISTRICT Phone 208-651-21922. MAILING ADDRESS PO BOX 2788 City HAYDENState ID Zip 83835 Email AUSTIN.CONSULTINGCDA@GMAIL.COM

- ☐ If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant.
☐ If the applicant is not the current water right(s) owner, attach documentation of authority to file the application.
☐ If the application includes a change in ownership of water right(s), attach a copy of the conveyance document, such as a warranty deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property conveyed or description of the water right if no land is conveyed. Additional fee(s) are required for water right ownership changes; see Item 9 for the [fee schedule](#).

If the ownership change resulted in the water right(s) being split, how did the division occur? Mark one:

- ☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.

3. LIST WATER RIGHT NUMBER(S) 95-8613, 95-9082, 95-9531

- ☐ Attach a copy of the water right(s) as recorded, available at [idwr.idaho.gov](#), *Water Right Transfers, Step 1*, or by contacting any Department office.

4. TOTAL AMOUNT OF WATER transferred is 2.05 cubic feet per second and/or _____ acre-feet per annum.
(diversion rate) (storage volume)5. POINT OF DIVERSION – Describe all the point(s) of diversion to be included on the water right(s) after the proposed change.

- ☐ Attach Eastern Snake Plain Aquifer (ESPA) analysis if this transfer proposes to change a point of diversion affecting the ESPA. ESPA analysis information is available at [idwr.idaho.gov](#), *Water Rights, Water Right Transfers, Modeling Resources*.

New?	Lot	¼	¼	¼	Sec	Twp	Rge	County	Source	Local name or tag #
			SW	NW	12	50N	05W	KOOTENAI	GROUND WATER	274455
	6		SE	NW	12	50N	05W	KOOTENAI	GROUND WATER	343781
Y	6		SE	NW	12	50N	05W	KOOTENAI	GROUND WATER	

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

ALL WELLS HAVE MEASURING DEVICES INSTALLED WITH LOCKED PUMP HOUSE AND WELL LOT

- b. Who owns the property at the point(s) of diversion? APPLICANT

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

- d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☒ No

- ☐ If yes and there are multiple owners, attach a Lessor Designation form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an IRS Form W-9.
(Disregard if these items are on file and ownership has not changed.)

7. **MAP** – ☐ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and ¼ ¼ of section information. You may create a map at idwr.idaho.gov, Water Rights, Water Right Transfers, File a Transfer Application, Step 2C.

8. **SIGNATURE** – The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

Robert G Haynes

Signature of applicant or authorized agent

9. **FEE** – ☒ The application filing fee provided in Idaho Code § 42-221.O, must be submitted with the application for transfer. Applications for changes pursuant to Idaho Code § 42-221.O.8. require a filing fee of \$50 per water right. All other application fees are based on the total amount of water proposed for transfer in Item 4: the larger fee for either cubic feet per second (diversion rate) or acre-feet per annum (storage volume). The Fee Schedule is available at www.idwr.idaho.gov, Water Right Transfers, Step 4 and in the Application for Transfer Instructions.

FOR DEPARTMENT USE ONLY

Transfer includes _____ pages of attachments. Received by _____ Date _____

Fee paid \$600.00 Date 9-27-2021 Received by JD Receipt # N037510

Preliminary review by _____ Date _____ Active in the Water Supply Bank? Yes ☐ No ☐

W-9 received? Yes ☐ No ☐ Name on W-9 _____ W-9 forwarded to fiscal? Yes ☐ No ☐

(Do NOT scan the W-9 – confidential information is held by fiscal only)

IDAHO DEPARTMENT OF WATER RESOURCES
Proof Report

11/2/2021

3. LBates 10/27/2021 Field Report Narrative

Field exam performed on 8/26/2021 with the applicant's water operator representative, Ian Kuchenski – Integrity Water Management, verified 2ea groundwater wells diverting water for municipal uses by Greenferry Water & Sewer District (Applicant). At the PODs, well #1 95-89-N-52 has a 75 HP pump installed & well #2 D0017929 has a 65 HP pump installed. Flowmeters are installed in the main water line from each well, and at time of field exam well #1 flow rate equaled 485 GPM & well #2 flow rate equaled 545 GPM. These flow measurements were captured with each well operating separate from the other. This Permit was applied for by the Applicant to increase diversion rate to reflect dual well pump operation diversion rate, which was not able to be captured at time of exam due to damaged circuit breakers restricting dual pump ops.

When the water system was developed to operate both well pumps simultaneously, there was a short period of time where both wells were functioning in dual pump operation on 6/30/2021. Mr. Kuchenski provided SCADA Excel Doc data sets and graphs as proof for the dual pump operation that occurred on 6/30. The SCADA system captures instantaneous flow each minute using software that reports data collection. The data capture on 6/30 was within the development period of the Permit and is recommended for use in licensing. On 6/30 @ 21:05, both pumps operating resulted in a combined flow rate equal to 451.2 GPM (well #1 + 493.8 GPM (well #2) = 945.0 GPM = 2.10 CFS considering department rounding standards. This Permit authorized development with maximum diversion rate = 0.80 CFS, which is recommended for licensing purposes. The over diversion value of 1.3 CFS is covered by the Applicant's existing water rights 95-8613 & 95-9082 which are limited to a total combined diversion rate of 1.25 CFS. The 0.05 CFS difference is not being considered a concern for over diversion, considering the variance in dual pump operation and that in a 3hr period of dual pump operation 20:30-23:30 on 6/30 most minutely captured flow rates were lower than 945 GPM.

During the exam, the pump house and SCADA system were observed, and the Applicant's storage reservoirs discussed. The municipal water system incorporates 4ea Reservoirs. The SCADA screen provides images showing the Snowshoe reservoir (consists of a 100k tank & 120k tank), the Highland reservoir (150K tank), and the Bella Ridge reservoir (200k tank). The municipal POU was entered into ADHOC as a large area POU, and during the exam the POU was validated by the water operator as being current. In addition to the active service connections, there are 16 lots not developed to date, which have dedicated stub-ins. The annual volume was derived using volume reports provided by Mr. Kuchenski years 2017-2020. Year 2018 had the highest recorded volume and shall be used to determine the maximum diversion volume =

- 2018 report year data = 82,465,000 GAL / 325,850 GAL per AF = 253.1 AF
- 16ea stub-in lots in service area = 16 x 1.2 af = 19.2 AF
- Annual total volume (maximum diversion volume) = 253.1 AF + 19.2 AF = 272.3 AF, which is recommended for licensing purposes.

Conditions 046 and 26A were removed from the permit during licensing review. Conditions F06 and X35 were added as described below. All other condition on the permit shall be carried to the license. Overlap concerns: decreed Rights 95-8613 & 95-9082 use groundwater for municipal use servicing Greenferry Water & Sewer District and have the same POU as this Permit for the same applicant. Condition X35 was added to mitigate overlap concern pertaining to combined use diversion rates and diversion volume. Due to WRs 95-8613 & 95-9082 having an overlap condition limiting combined diversion rate to 1.25 cfs, but both WRs not having a maximum diversion volume on the face of both rights, identifying an overlap

IDAHO DEPARTMENT OF WATER RESOURCES
Proof Report

11/2/2021

combined use volume for three each WRs was derived using the 1.25 cfs diversion rate x 24/7 365 day pumping volume = 905.0 af. As a result, condition X35 was added stating combined diversion rate between 95-8613, 95-9082, & 95-9531 shall not exceed 2.05 cfs, nor the annual volume of 905.0 af at the field headgate. Decreed Rights 95-8613 & 95-9082 share the same two groundwater well PODs as this Permit. Condition F06 was added to Permit to describe the same POD(s) shared by the three water rights. There are several surface source rights that overlap this permit, but are not a concern for this municipal service provider water right. There are no addition concerns for overlap.

Greenferry Water District Well Location Map for Transfer Application

To Whom It May Concern:

The Greenferry Water & Sewer District has secured the services of Robert G Haynes to assist in the process of filing a transfer of a water right. By this letter we authorize him to sign our application and provide additional information to the Department of Water Resources which may be required to complete the application for permit.

Sincerely,

A handwritten signature in dark ink, reading "Stephen A. Tanner". The signature is written in a cursive style with a large initial "S" and a long, sweeping underline.

Chairman, Greenferry Water & Sewer District

RE: Transfer No. 85475
Water Right No(s). 95-8613, 95-9082, 95-9531

Dear Applicant(s):

The Department of Water Resources has received your water right transfer application. Please refer to the transfer number referenced above in all future correspondence regarding this transfer.

A legal notice of the application has been prepared and is scheduled for publication in the COEUR D ALENE PRESS on 11/18/2021 and 11/25/2021. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman
Administrative Assistant

Dear Interested Agencies:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced Water Right Permit application. You can find copies of the application at: <http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>.

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application(s), you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication. The deadline for comments on the applications is December 6, 2021.

Please contact the Northern Region Office at (208) 762-2800 if you have any questions regarding the Permit application.

Thank you,

Tammy

NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 85475

GREENFERRY WATER & SEWER DIST, PO BOX 1105, POST FALLS, ID 83877-1105 has filed Application No. 85475 for changes to the following water rights within KOOTENAI County(s): Right No(s). 95-8613, 95-9082, 95-9531; to see a full description of these rights and the proposed transfer, please see <https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers>. The purpose of the transfer is to change a portion of the above rights as follows:

This transfer proposes to add a new point of diversion and change/correct an existing point of diversion to the Greenferry Water & Sewer District's existing municipal groundwater right(s) 95-8613, 95-9082, and 95-9531. The wells are located within the Greenferry Water & Sewer District's service area.

For additional information concerning the property location, contact Northern Region office at (208)762-2800. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Northern Region, 7600 N MINERAL DR STE 100, COEUR D ALENE ID 83815-7763 together with a protest fee of \$25.00 for each application on or before 12/6/2021. The protestant must also send a copy of the protest to the applicant. GARY SPACKMAN, Director Published on 11/18/2021 and 11/25/2021
