Transfer Narrative

Per approved transfer #78515, applicant has eleven water rights authorizing irrigation of 850 acres from ten wells as an integrated system. Due to decreased production in two of the authorized wells, applicant recently drilled two new wells as replacement wells under drilling permit Nos. 889633 (1N, 2W, S5, SENE well) and 978958-885015 (2N, 2E, S31, SESE well). Rather than permanently abandoning the original wells, applicant would like to keep them as backup wells in case he experiences sanding problems in any of the production wells during the irrigation season, especially when crop needs are critical.

During preparation of the transfer application, one of the eleven water rights (No. 63-3274) was found to still be listed in the name of the previous owner DBSI TIEGS 979, LLC. This water right was part of transfer #78515 and also included on a *Notice of Change in Water Right Ownership* filed and processed in 2013 (see Attachment B). Original records can be found in the Department's backfile for water right 63-2896. Applicant requests ownership of this water right be updated accordingly.

NOTICE OF PROPOSED CHANGE OF WATER RIGHT

TRANSFER NO. 84962

SUN RIDGE DAIRY LLC, 4890 DRY LAKE RD, NAMPA, ID 83686 has filed Application No. 84962 for changes to the following water rights within CANYON County(s): Right No(s). 63-2896, 63-3043, 63-31476, 63-3255, 63-3274, 63-33543, 63-33544, 63-33546, 63-33547, 63-33757, 63-3486; to see a full description of these rights and the proposed transfer, please see <https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers>. The purpose of the transfer is to change a portion of the above rights as follows:

This transfer proposes to add two new points of diversion for the included water rights. The new points of diversion consist of two wells recently drilled to replace existing wells that experienced a decrease in production. Rather than permanently abandoning the existing wells the applicant proposes to keep them as backup wells to be used if problems occur in other wells. The new wells are located approximately 3.25 miles west of Bowmont, Idaho

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208)334-2190; or for a full description of the right(s), please see <https://idwr.idaho.gov/apps/ExtSearch/WRAApplicationResults/>. Protests may be submitted based on the criteria of Idaho Code § 42-203A and 42-222. Any protest against the proposed change or the approval of this application must be filed with the Director, Department of Water Resources, Western Region, 2735 W AIRPORT WAY, BOISE ID 83705-5082 together with a protest fee of \$25.00 for each application on or before 11/22/2021. The protestant must also send a copy of the protest to the applicant.

After taking a look it appears that the points of the shapefile for those two wells are actually right on top of each other so while it looks like there's only one there actually is two different points there. I am not entirely sure what happened there when the shape was being made, I think I could go ahead and make a correction to the shapefile though since it is supposed to just be a visual representation of what is on the face of the right. If you know where the locations of those two wells should be I can see if I can make that correction, if not I could even do a little digging through the backfiles.

Thanks,

Aaron

You bet Aaron. Thanks for checking. The person that needs to initial the change is a dairyman and hard to catch.

On another matter, the water rights authorize two wells in the SESW, however the Department's GIS shape layer only shows one. Can that be fixed? Normally, there is one point/well rather than one point/two wells.

Good morning Lori,

That is what I got yesterday after having a conversation with Scott about it. I just got the chance to speak with Nick about it to get his thoughts as well and he is agreeing that either the applicant needs to initial the changes or some authorization needs to be provided for you to sign on behalf of the applicant to do so as the representative. He says that in the past they may have been lenient on allowing to work around that requirement but according to our administrative rules we should be handling those the proper way.

Sorry for the trouble on that, I know it might be a bit more inconvenient on your end and different from how things have been done in the past but that's how I've been advised to handle corrections moving forward. Once I get that correction though I will have this application ready to go out for advertising.

Thanks,

Aaron

Did you ask Scott or Nick? Reason being is that the consultant's initials and date have been accepted in the past for minor changes.

Hi again Lori,

I actually just checked in with my supervisor on the corrections to the transfer. The corrections will actually need to be initialed or signed by the applicant, or for you to sign we will need some documentation provided that you have authority to sign on behalf of the applicant since it was not included in the original application.

Thanks,

Aaron
