Subject: RE: IDWR Water Right Application for Permit

Jim,

Thank you for the update. I will keep an eye out for that so we can get this application wrapped up.

Thanks, Aaron

Aaron:

I am working with Natural Guardian, but they have not contacted me back. I will continue to pursue your request.

Aaron:

I received your verbal and email message in regard to getting an access agreement with National Guardian in regard to the claimed Taylor Creek Diversion. I will contact their representative and get the same and forward to your office.

Thanks for working with us,

Jim Hagenbarth

Hello again James and David,

I have been processing your Water Right Application for Permit. The application has gone through advertising and is about ready to have a permit issued, but there is just one item still required before I can send it to the next stage in the process. Since the point where water will be diverted from Taylor Creek is located on Natural Guardian LLC's property, evidence of legal access to the property will need to be provided. A document granting permission for legal access signed by a representative of the property owner would be sufficient.

Please let me know if you have any questions or concerns and feel free to reach out to me via message or at the phone number down below, I would be glad to help.

Thanks, Aaron
