Re: Application for Transfer of Water Right 37-387C

To whom it may concern.

The application proposes to add a new Point of Diversion (POD) on the East Fork Wood River to water right 37-387C.

A review of the transfer application submitted by Lawson Laski Clark, PLLC to the Department of Water resources on your behalf revealed issues and/or incomplete items that are needed for processing. As a result, the Department is returning the application to Lawson Laski Clark, PLLC for the necessary information. If the following necessary information is not received within 30 days of the date of this letter, the Department will initiate a refund of the \$50.00 filing fee to Lawson Laski Clark, PLLC receipt S038820.

- The filing fee of \$50.00 submitted with the application is incorrect. The correct fee for this application is \$580.00. In order to add a new POD to water right 37-387C that allows for the total diversion of 1.620 cfs from the East Fork Wood River.
- The legal description of the existing POD listed on the application is incorrect. The correct location is SESW, Sec 35, Twp 04N, Rge 18E.
- In addition, other water rights are also diverted from the existing POD. It is unclear if they are to be diverted from the new POD and should be included in the application or will water right 37-387C be the only water right diverted and the proposed new diversion.
- The application did not include a "Part 2" or a copy of water right 37-387C with the application.
- The map included with the application incorrectly identifies the POD's in the correct quarter, quarter, SESW.

If you have any questions, or if I can be of any further assistance, feel free to contact me at your convenience.

Sincerely,

Benny Walker
