WATER SUPPLY BANK LEASE CONTRACT No. 1396

6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Right Nos. 37-2557R, 37-21858, 37-21875, 37-21892, 37-21909 and 37-21926 are limited to the irrigation of a combined total of 5 acres in a single irrigation season.
13. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
14. Property is also known as Lot 6, Blk 4, Bellevue Farms Subdivision.
15. Point of diversion for Big Wood River described above is the headgate for District 45 canal.
16. Water right 37-2557R when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
17. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
18. A portion of this right provides conveyance for other right holders in the shared delivery of water through the Wood River Irrigation District #45 canal. To prevent injury to other water right holders, the watermaster shall deliver 20% or 0.07 cfs of the leased portion of this right into the Wood River Irrigation District #45 Canal whether it is rented or not.

RE: APPLICATION TO LEASE WATER RIGHTS 37-2557r, 37-21858, 37-21875, 37-21892, 37-21909 & 37-21926 TO THE WATER SUPPLY BANK CONTRACT 1396

****TIME SENSITIVE RESPONSE REQUIRED***

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2025**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Jean Hersley

Narrative: The Department received these applications on December 21, 2021. Consent was needed from the Wood River Irrigation District #45 and The Triangle Irrigation District. Final consent was received on April 5, 2021. The applicant wishes to place the entirety of all rights in the Bank. These rights were decreed in 2010 and placed in the Bank in 2016. These rights have never been co-mingled due to the fact the current delivery system does not reach the applicant's property because of subdivision development. 37-2557R is a supplemental ground water right. The source of the other rights in Big Wood River. Wood River Irrigation and Triangle Irrigation are requiring a 20% hold back for conveyance loss. These rights are currently within WD 37.

Lori,

I thought I had already requested this but I don't think I did.

The Department will need consent from Irrigation District 45 and the Triangle Irrigation District to place Mr. Dion's rights in the Bank. They usually require a holdback. Please get me the consents as soon as possible. Thank you.
