Narrative: The Department received this application on March 29, 2021. The application was signed by Mike Faulkner, secretary. The parent of this right, 37-8487A, was licensed in 1994. This right was created through transfer 67010, splitting 37-8487A into 37-8487C & 37-8487D. A memo, written in April, 2002 by Cynthia Bridge-Clark, concluded this right was supplemental to water from the North Side Canal Co.(NSCC). A note on the transfer application stated that some of the acres that will continue to be irrigated with water from the NSCC are not included in this water right. This practice has been going on since the water right was placed in the Bank in 2001 until the contract expired in 2020. According to WMIS records, no water has been used from the well. There are no issues of forfeiture. This right is currently within WD 130.
