8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

13. Right Nos. 37-22970, 37-22971, 37-22972 and 37-22973 are limited to the irrigation of a combined total of 11.5 acres in a single irrigation season.
14. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
15. A portion of this right provides conveyance for other right holders in the shared delivery of water through the Hiawatha Canal. To prevent injury to other water right holders, the watermaster shall deliver 20% or 0.1 cfs of the leased portion of this right into the Hiawatha Canal whether it is rented or not.

13	Narrative: The applicant wishes to place the entirety of all rights in the Bank. The parents of these rights were decreed in 2011. The POU is currently served by the City of Hailey municipal rights. The water from the Big Wood River is no longer used at this location. There is no delivery system in place but when there was, the water was delivered through the Hiawatha Canal. 20% will be left in the canal for conveyance loss if rented outside the Hiawatha system. These rights have never been used with the City of Hailey rights. These four rights combined are limited to the irrigation of 11.5 acres. These rights are currently within WD 37.

Re: Request to Water Bank 37-22970, 37-22971, 37-22972 and 37-22973
Applicant: Northridge V Subdivision Owners' Association, Inc

Dear Sir or Madam:

The purpose of this letter is to respond generally to water rights being leased to the Water Bank, which are conveyed in the Hiawatha Canal ("Canal") by the Hiawatha Canal Company, a.k.a. The Hiawatha Canal Water Users Association of Lateral or Laterals ("Canal Company"). For the reasons outlined below and on the conditions requested, the Canal has no objection to the aforementioned water rights being placed into the Water Bank.

The Hiawatha Canal Company is concerned about the amount of water being removed from the Canal and placed in the Water Bank by various water right holders. Generally, at this time, the Canal Company does not object to water rights conveyed in the Hiawatha Canal being placed in the Water Bank provided that if the water rights are leased to parties outside of the Canal, then the Water Bank should require twenty-percent (20%) of the right be left in the Canal as conveyance loss. I suggest that the Department place a condition on the leases to this effect.

Providing you some historical perspective, the Canal Company filed for mitigation (conveyance loss) rights in the adjudication for rights that had been forfeited or abandoned out of the Canal. The Department agreed that the conveyance loss in the Canal was twenty-percent (20%), and therefore, entered recommendations accordingly. See e.g., water rights 37-22630, 37-22631, 37-22632 and 37-22633. This conveyance has been recognized by the Idaho Department of Water Resources in similar transfers. Leaving twenty-percent (20%) of the leased rights in the Canal will insure that all rights in the Canal continue to be delivered without injury to water right holders in the Canal.

As a condition of being leased, the Canal Company requests:

1. The Canal Company does not presently object to the aforementioned water rights being placed in the Water Bank, provided that twenty-percent (20%) of the right is left in the Canal as conveyance loss; and

2. The Canal Company would like to be notified if the water rights are eventually released from the Water Bank, or if the Water Rights are being leased again to the Water Bank after the expiration of the lease period.

Thank you in advance for responding to this letter and addressing our concerns. If you have any questions, please do not hesitate to call me.

Sincerely,

HIAWATHA CANAL COMPANY

Subject: WSB Lease applications for 37-22970-37-22973

Mr. Haemerle,

The Department of Water Resources received the applications you submitted on behalf of Northridge V Subdivision Owner's Assoc. Inc to lease water rights, 37-22970, 37-22971, 37-22972 and 37-22973 to the Water Supply Bank. Since the water for these rights is diverted from the Hiawatha Canal, the Department will need consent from the Canal Company to lease these rights to the Bank. These applications will be placed on hold until the consent is received.

Please let me know if you have any questions. Thank you.
