7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.

It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

Dear Applicant:

The Department of Water Resources mailed two contracts to you on June 18, 2021. It was brought to our attention that the total number of acres was incorrect. **I have enclosed two AMENDED original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2025**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. Jean,

I believe the 8A irrigated by 37-496F overlaps the 14.8A irrigated by the other two rights, so the limit of leased acres is 14.8A and not 22.8A. Can you check that before this is mailed out?

13	Narrative: The Department received these applications on April 16, 2021. The applications were signed by Myer Berlow, manager. The current owner wishes to place the entirety of all three rights in the Bank. Water right 37-496F was decreed in 2010 and 37-21418 & 37-21420 were decreed in 2009. 37-496F was in the Bank 2010-2015, 2017-2020. 37-21418 & 37-21420 were in the Bank from 2010-2014 then from 2017-2020. There are no issues with forfeiture. These rights completely overlap each other and have a combine diversion volume of 51.8 af so they will need to be rented together. Water right 37-496F is for irrigation, fire protection and aesthetic use so this needs to be taken into consideration when renting this water. Water rights 37-23033, 37-23034 & 37-23036 are also diverted from the same POD. These rights are currently within WD 37.
