STATE OF IDAHO
DEPARTMENT OF WATER RESOURCESAPPLICATION FOR PERMIT
To appropriate the public waters of the State of IdahoWATER RESOURCES
WESTERN REGION

1. Name of applicant(s) Bruneau-Grandview JNT school #365 Phone 208-834-2260
 Mailing address 39678 State highway 78 City Bruneau
 State Idaho ZIP 83604 Email Jaquiso@sd365.us, Tshumway@sd365.us
 Name connector (check one): ☐ and ☐ or ☐ and/or
 2. Name of representative, if any Jonathan McClure Phone 254-495-5086
 Mailing address 39678 State highway 78 City Bruneau
 State ID ZIP 83604 Email jmcclure@sd365.us
 a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
☒ Send original correspondence to the applicant and copies to the representative.
 b. ☒ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.
 3. Source of water supply drain ditch- Surface water which is a tributary of NA
 4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4 -	1/4	County	Source	Local name or tag #
05S	03E	15	6	NW	SW		Owyhee	surface water	Drain ditch

5. Water will be used for the following purposes:
 Amount 502.47 Acre ft for Irrigation purposes from April 15 to 10/31 (both dates inclusive)
 (cfs or acre-feet per year)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
 6. Total quantity to be appropriated is (a) .2228 cubic feet per second (cfs) and/or (b) 502.47 acre-feet per year (af).
 7. Proposed diverting works:

- a. Describe type and size of devices used to divert water from the source. Pump to produce 100Gpm from existing man hole at source, roughly 500' of 4" PVC as a main to cross under road way to water School grounds.
 b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate [Application for Construction or Enlargement of a New or Existing Dam](#). Application required? ☐ Yes ☐ No
 c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
 d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No
 e. If well is already drilled, when? _____; drilling firm _____;
 well was drilled for (well owner) _____; Drilling Permit No. _____

For Department Use

Received by DL Date 08/02/2021 Time 4:36pm Preliminary check by AK
 Fee \$ 100.00 Received by DL Receipt No. W049661 Date 08.02.2021

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in kW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; must complete and attach the [Municipal Water Right Application Checklist](#).
- Domestic; show number of households _____
- Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
05S	03E	15										3.47	.75						4.22

Total number of acres to be irrigated: 4.22

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? 2 small yards on the North side of the school building are on city water. The existing well could be either separated to serve the remaining small yards or remain connected.

Spoke with Grandview irrigation District, they do not deliver to this source.

- Who owns the property at the point of diversion? City of Grandview
- Who owns the land to be irrigated or place of use? Bruneau-Grandview JNT school #365
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: verbal approval from the mayor.

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. Grounds are currently watered by a small well that is insufficient. 2 small yards are connected to city water. The new water source would water all of the grounds apart from the 2 small yards connected to the city. This includes a Soccer/baseball field and a play ground. Pump to be installed across the street near the senior center and pipe under the road way. Permission has been recieved from the city to trench across the road provided we collaborate with the city maintenance team.

13. Time required for completion of works and application of water to proposed beneficial use is 54 years (minimum 1 year).

14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

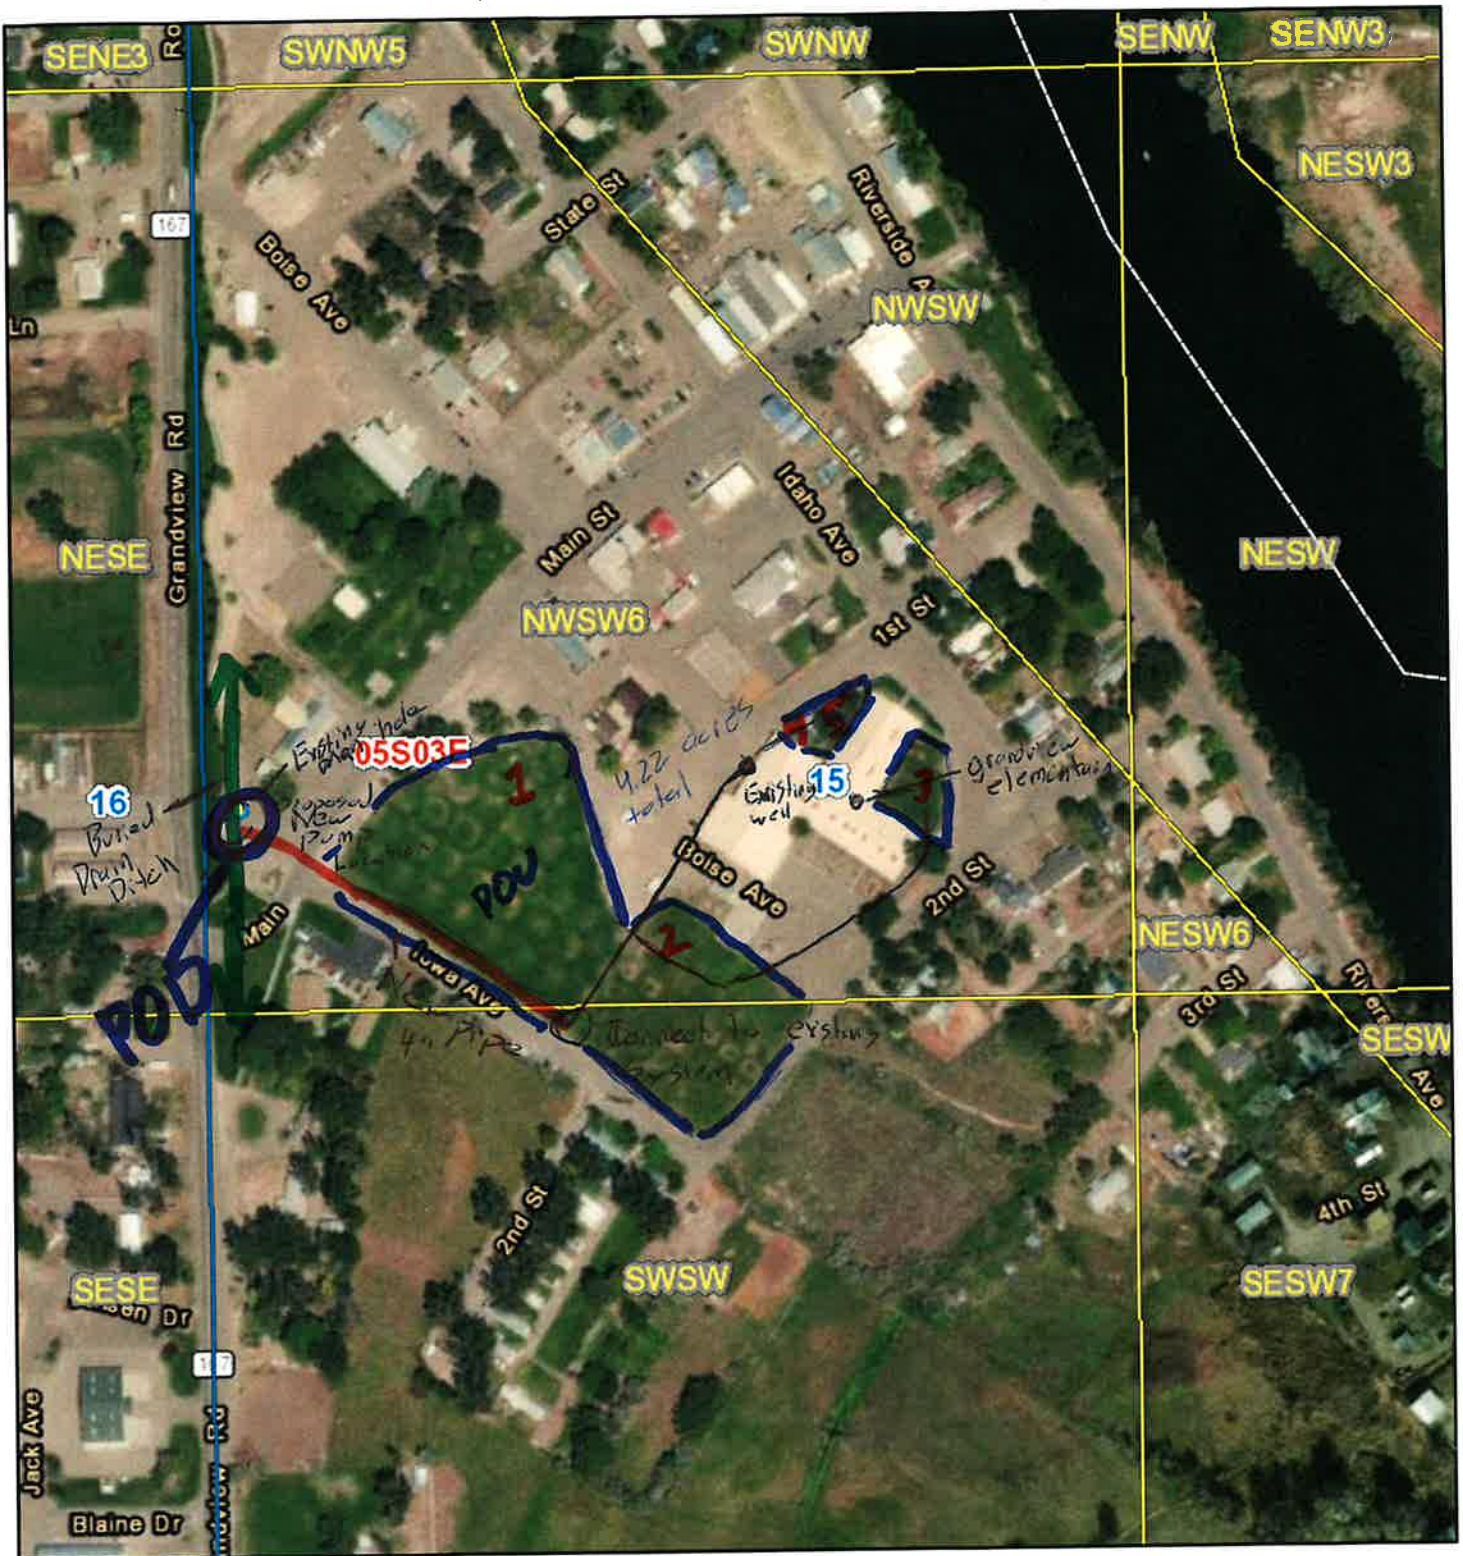

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

RE: Application for Permit No. 57-12073

Dear Applicant:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the OWYHEE AVALANCHE on 10/20/2021 and 10/27/2021. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Denise Lauerman
Administrative Assistant

Subject: Application for Permit of 57-12073
Attachments: Recommendation Form New Approp Watermaster 57-12073.docx

Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right applications. You can find a copy of the application at: <https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the applications, then complete the enclosed recommendation form and return it to this office by **11/08/2021**.

If the applications are approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation by **11/08/2021**, IDWR will presume that you do not oppose approval of the applications and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.

Thanks!
Denise

RE: Application for Permit No. 57-12073

Dear Interested Party:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from your organization regarding the above referenced water right application. You can find a copy of the application at:

<https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx> Please review the application, complete the enclosed recommendation form, and submit it to this office within 21 days of the date of this letter.

IDWR can finish reviewing an unprotested application as soon as the protest period has passed. Therefore, your prompt response to this request is appreciated. If your organization desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication.

Please contact this office if you have any questions regarding the application.

Sincerely,

Denise Lauerman

Subject: Re: Permit Application Questions/Clarifications

Anna,

Thank you so much for the question and looking into our application. I've attached some photos in hopes they will help. Our set up is confusing at best so if you'd like for me to call some time to better explain anything please let me know. There's a long confusing history of water changes for these grounds which has left the grounds in dry and dead as the well trying to service everything is way too small. My primary goals with this are to get the school grounds sufficient water so the campus is no longer an embarrassment and to do it correctly and be fully in compliant. I've also attached a photo of the POD in discussion and our well.

Please see the notes below in **Red**;

On Sep 20, 2021, at 3:15 PM, Kaiser, Anna <Anna.Kaiser@idwr.idaho.gov> wrote:

1.

Surface water source

- Item 3 on your application states you intended to draw water from a drainage ditch. Based on the Department's aerial imagery, it is unclear whether the drainage ditch consists of water from the Snake River or wastewater from the Grand View Irrigation District Canal.

The drain ditch was buried sometime after 2006, I've attached an aerial image from that time where the exposed canal can be seen. Later images it is buried and has grass along the road side on top of where it used to be. I've also included a photo of the man hole (POD) which if approved will be where we place our pump. In the photo you can see main street and the school in the background with the POD in the foreground. I first worked with the Canal company and they determined this does not come from the canal but is "surface runoff" or "shallow ground water" It does not come from the Snake River either but is flowing toward it.

-
- Please further clarify the source of your surface water.

2. *Well*

- The map included with your application highlights a well.
- Do you intend to utilize the well as part of this water use proposal? If I am understanding this question correctly no, The amount requested does not include any utilization or support from the well. However, We are open to suggestions here. It's apparent now the well probably never should have been connected to the fields (yards 1&2) in the first place, I learned from your coworker (Alan?) as we turned in the application. We want to do what is A) Correct. And B) simple. The correct course of action (I think what I'm learning, you tell me) may be to isolate the well to only service the front small yards of the school as it was probably intended many years ago. The

simplest option would be to leave it alone and to plumb in with new water supply and they would both feed the irrigation system. I understand if that may not be possible. Ive attached a map trying to explain our set up and one trying to explain what we could do

with the well.

- If so, please add the well description to your application form (under items 3, 4, 7, and 12).
- If not, you *may* need to file a separate application for permit describing the water use from the well.

I understand there is a lot of information here and its confusing. Please feel free to call anytime. Let me know if this answers your questions and what next you need from me.

Subject: Permit Application Questions/Clarifications
Attachments: Application for Permit No. 57-12073.pdf

Good afternoon,

I am currently reviewing your permit application (No. 57-12073). I need some clarification on the following points:

1. Surface water source

- Item 3 on your application states you intended to draw water from a drainage ditch. Based on the Department's aerial imagery, it is unclear whether the drainage ditch consists of water from the Snake River or wastewater from the Grand View Irrigation District Canal.
- Please further clarify the source of your surface water.

2. Well

- The map included with your application highlights a well.
- Do you intend to utilize the well as part of this water use proposal?
 - If so, please add the well description to your application form (under items 3, 4, 7, and 12).
 - If not, you *may* need to file a separate application for permit describing the water use from the well.

With this application, I have attached a scanned copy of your permit application. Please make the appropriate clarifications by either responding to this email with the requested information, or by sending me a copy of your permit application with the clarifications made on your application form. Please do not hesitate to contact me if you have any questions.

Please provide your response within 30 days of this email. You may seek additional time to provide the requested information by making a written request to interrupt processing for up to six months. The application will be voided without a timely written reply within the next 30 days. Refunds are not issued for voided applications.

Thank you,
Anna
