CONDITIONS OF APPROVAL

4. Rights 61-2199A and 61-2209A when combined shall not exceed the irrigation of 401 acres.
5. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
6. Prior to the diversion and use of water under Transfer Approval 84440, the right holder shall install and maintain on each point of diversion a measuring device and lockable controlling works of a type acceptable to the Department.
7. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 161.
8. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 04/01 and after 11/01 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 08/28/2002.
9. Right No. 61-11887A is an enlargement of this right, 61-2095A, and 61-2199A pursuant to Idaho Code § 42-1426.
10. Right holder shall comply with the drilling permit requirements of Idaho Code § 42-235 and applicable Well Construction Rules of the Department.
11. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
12. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
13. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

Transfer Approval Notice

Dear Water Right Holder:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right. Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right is a PRELIMINARY ORDER issued by the Department pursuant to Idaho Code § 67-5243. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to Idaho Code § 42-1701A(3). A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office

of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 287-4800.

Sincerely,

A handwritten signature in blue ink that reads "Angela M. Hansen". The signature is fluid and cursive, with the first name "Angela" being more prominent.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer 84440
FROM: Cody Parker
RE: Combined use limits for water rights 61-2095A, 61-2199A, 61-2209A, and 61-11887A
DATE: September 28, 2021

Purpose of transfer

Transfer 84440 proposes to consolidate the irrigated acreage authorized by water rights 61-301B, 61-2111, and 61-11885, reducing the total acreage by 41 while maintaining the same quantity of water. These three water rights are part of a larger suite of rights owned by the applicants. The suite of rights contain a total of 10 different combined use limits. Some of these limits must be updated upon consolidation of the acreage.

Issues

Introduction

There are a total of 24 different water rights in the suite of rights owned by the applicants. Combined limits on some of these rights associate them with an additional 4 water rights which are owned by the BLM. The interactions between the water rights are complex and, in some cases, the combined use limits seem to be almost at odds with one another.

The transfer proposes to consolidate the acreage authorized by 61-301B, 61-2111, and 61-11885 from 174 acres to 133 acres. These three rights combined are limited to 174 acres by a condition present on each of the rights. This limit will be modified to reflect the consolidation of acreage in transfer approval 84440.

Water rights 61-2095A, 61-2199A, 61-2209A, and 61-11887A were decreed with the following combined-use limit (also shown in **column 14** of the attached spreadsheet):

Water Right	Rate	Volume	Acres
61-2095A	3.05	1260	315
61-2199A	5.88		800.9
61-2209A	0.41		800.9
61-11887A	2.36		800.9
61-301B	1.02	433	174
61-301A	5.38	984	246.6
61-332	2.72		847.3
61-333	0.54		847.3
61-334	0.5		847.3
61-335	0.48		847.3
61-336	0.8		847.3
61-337	2.4		847.3
61-338	1.84		847.3
61-339	1.5		847.3
61-340	0.5		847.3
61-343	0.6		847.3
61-364	0.12		847.3

61-2008	0.87		247.3
61-10363	3.25		246.6
61-11844	0.54		50.6
61-11847	0.6	120	30.6
61-11854	0.42		161

Combined Limit: 1368 acres

As shown above, the combined-use limit included 61-301B. However, the decree for 61-301B was issued the same day as the decrees for 61-2095A, 61-2199A, 61-2209A, and 61-11887A, but did not make mention of this combined-use limit.

There is one other limiting condition included in the suite of rights which limits the same rights in combination, excluding 61-301B, also to 1,368 acres (**column 9** of the attached spreadsheet).

There is a third combined-use limit which includes the same water rights. This limit also excludes 61-301B but includes 4 additional rights owned by the BLM. This condition also limits the rights to 1,368 acres (**column 1** of the attached spreadsheet).

If transfer approval 84440 reduces the acreage for the combined use limit in the table above (to represent the consolidation of acres), but left the limits represented by **columns 1** and **9** of the spreadsheet, it would imply that the use of water under right 61-301B reduces the amount of acreage authorized for irrigation, which makes no sense. Put another way, the suite of rights in the limit would authorize 1,368 acres of irrigation if 61-301B was not used. Once 61-301B was used, the total authorized acreage would drop down to 1,327.

Conflicting historical record

For the water rights listed in the table above, only 5 decrees mention a combined limit with 61-301B, though many of them do have conditions limiting the suite of rights, excluding 61-301B, to 1,368 acres.

Water right 61-11854 was decreed with a condition limiting these rights to 1,368 acres. That condition referred to "61-301" (the parent of 61-301A and 61-301B). In transfer approval 81800, this condition was update to replace 61-301 with 61-301A. It did not include 61-301B.

Enlargement concerns

The main concern is that removing 61-301B from the combined use limit will enlarge that right because the irrigation use will no longer be constrained by the combined use limit. However, the part of the place of use to be moved (irrigated last in 2017) will be dried up following the transfer approval and the new consolidated acres will be irrigated. The end result is fewer total irrigated acres so no enlargement is anticipated.

Figure 1 The raster image above shows NDVI values ranging from 0.6 (blue) to 0.88 (red)

Using a relatively high minimum NDVI value of 0.6 as an indicator for irrigation shows a minimum of 1706 acres of irrigation in 2017 (April through October). Irrigation is apparent in the southern area that is to be changed through the transfer. The maximum irrigated acreage exceeds the 1368 acres so it appears that 61-301B has historically been treated as not part of the combined use limit.

Proposed solution

Based on the information above, 61-301B will be removed from the combined use limit condition on water rights 61-2095A, 61-2199A, 61-2209A, and 61-11887A through transfer approval 84440.

- Group A Rights
- Group B Rights

MEMORANDUM

TO: Transfer No. 84440
FROM: Shilynn Novak
DATE: June 11, 2021
RE: Evaluation of Application

Summary of Information Submitted: The transfer proposes to redefine the POU boundaries for water right nos. 61-2095A, 61-2199A, 61-2209A, 61-11887A, 61-301B, 61-2111, and 61-11885 to better reflect current irrigation. 61-2095A, 61-2199A, 61-2209A, 61-11887A (61-2095A Group) will redistribute 51 acres around pivots and fields to fill in gaps in Sections 9, 10, 16 and 17. 61-301B, 61-2111, and 61-11885 (61-301B Group) will move and consolidate the lower 161 acre portion of the current POU to a 120 acre pivot north of the wind turbines while maintaining the same diversion rate.

The site is located approximately 9.2 miles NW of Glenns Ferry, approximately 13.5 miles east of Mountain Home, and is north of I-84.

Contact person for the applicant is Lori Graves at SPF Engineering. She can be contacted at 208.383.4140 or lgraves@spfwater.com.

Authority to File: The application was filed for Casa Del Norte LP (CDN) by John B McCallum. ID SOS records show that CDN is managed by A.R.D. Trading, Inc. which Mr McCallum is registered as the President and Director. Mr McCallum has authority to sign on behalf of CDN.

Water Right Validity: These rights were all decreed in 2002. These rights are presumed to be valid since beneficial use has occurred within the last five years. Beneficial use confirmed by department aerial imagery, landsat images, google earth images, and other evidence found in the backfile of the water rights.

Water Right Overlap: The four water rights in 61-2095A Group, has a combined use limit of 9.34 cfs and an annual volume of 3203.6 af for irrigation of 800.9 acres. The three water rights in 61-301B Group are the only rights pertinent to the proposed POU. No other rights should be considered.

Injury to Other Water Rights: No injury is anticipated. The same amount of water from the same sources will be used. The same water will be irrigating the same number of acres for 61-2095A and 41 acres less than what was previously irrigated. Double Anchor Ranches, Inc. protested the application for transfer during the protest period on the grounds that the transfer may injure other water rights. Double Anchor Ranches, Inc. withdrew their protest and it was an unconditional withdrawal. No other protests were received during the protest period.

There should be no impacts on other wells in the area since there will be no changes that differ from historical pumping. The only notable change in POU is the decrease in irrigated acres Group B which results in a 0.02 cfs/acre rate. The rate per acre will change since the acres are decreasing, but the amount of pumping will not.

Enlargement of Use: Enlargement is not anticipated for both groups; 61-2095A Group and 61-301B Group. In 61-2095A Group, the same number of acres will be rearranged around the current POU. 61-301B Group is decreasing the number of acres to be watered while maintaining the same rate and volume of water used. 61-301B Group will be using 2.52 cfs for 120 acres which is 0.02 cfs/acres and is the Department standard rate for irrigation.

Local Public Interest: The applicant proposes to change the place of use to reflect current irrigation practices while using the same historical rate.

Although the transfer application was protested, no information has been made available to suggest a conflict with public interest.

For these reasons this application proposes a change consistent with the local public interest.

Beneficial Use/Conservation of Water Resources: The application proposes to adjust 61-2095A Group boundaries to the current use. 61-301B Group proposes to move and consolidate irrigation to 120 irrigated acres to accommodate an irrigation pivot. The application proposes beneficial use consistent with conservation of water resources in Idaho.

Water Supply Bank: None of the water rights are in the water supply bank.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

RE: Withdrawal of Protest – Application for Transfer No. 84440

Dear Applicant and Interested Parties:

The Idaho Department of Water Resources (Department) acknowledges receipt of the attached withdrawal of protest against the above referenced application for transfer from Double Anchor Ranches, LLC.

The application has no remaining protests, so the Department will take the steps necessary to bring the application to final resolution.

Additionally, the withdrawal of all active protests against the application resolves the contested case created by the protests, so **the prehearing conference in this matter that was scheduled for Wednesday, March 25, 2021, at 9:00 a.m. is now canceled.**

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

A handwritten signature in blue ink that reads "Denise Lauerma". The signature is fluid and cursive, with the first name "Denise" and last name "Lauerma" clearly distinguishable.
