Re: Encroachment Permit L-96-S-1613B

Dear Mr. Morris:

Enclosed is subject permit in accordance with the application you filed with this office. Please comply with all special terms and conditions. This permit does not preclude you from getting other permits such as one from the Corps of Engineers. You should contact them prior to construction.

This permit is not valid until you provide us with proof of recordation from your county recorder's office. Please note that the original notarized permit must be presented to the recorder; a copy will not be accepted. The encroachment permit number 1613 (not L-96-S-) must be displayed upon the most waterward area of your encroachment with metal, plastic (vinyl) or wooden numerals at least three inches in size.

WHAT NEXT

1. **Record** the Encroachment Permit with the respective County in which the encroachment is located. The recordation number is then written on line 4 of the YELLOW Work Completion Report. When encroachment is complete, fill in date on the YELLOW form and return to the address indicated on the form.
2. The BLUE form – Request For Assignment of Encroachment Permit – is for when you sell your property. You sign in the appropriate location and give it to the new owner, they complete the form and return it to the Idaho Department of Lands.

Thank you for your cooperation.

Sincerely,

EDWARD ROBINSON

SEPARATE PERMIT DECISIONS MUST BE
RECEIVED FROM BOTH THE STATE OF
IDAHO AND THE CORPS OF ENGINEERS
PRIOR TO START OF WORK

The Department of the Army permit program is authorized by Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. These laws require permits authorizing structures and work in or affecting navigable waters of the United States and the discharge of dredged or fill material into waters of the United States, including their adjacent wetlands. State permits are required under the State of Idaho Stream Channel Protection Act (Title 42 Chapter 38 Idaho Code) and the Idaho Lake Protection Act, Section 58-142 et. seq, Idaho Code. This application will meet the requirements of the above agencies.

DEPUTY

ENCROACHMENT PERMIT NO. L-96-S-1613B

Permission is hereby granted to Donald Morris of 108 Indian Meadows Road, Sandpoint, ID 83864 to install and maintain ~~a launch rail system 150 lineal feet into lake and domestic waterline~~ 200 feet into lake, existing 8' x 60' pier and mooring buoy 40' from pier. Located: Pend Oreille Lake, Warren Island, Parcel RP004840020060A, Wasoonta Lake Lots, Block 2, Lot 6, Section 34, Township 57 North, Range 1 East, Boise Meridian, Bonner County.

1. All applicable provisions of the Rules for Regulation of Beds, Waters, and Airspace over Navigable Lakes and Streams in the State of Idaho are incorporated herein by reference and made a part hereof.
2. Construction will follow details and specifications shown on the approved drawings and data provided by the applicant. Should such information and data prove to be materially false, incomplete and/or inaccurate, this authorization may be modified, suspended, or revoked in accordance with the Administrative Procedures Act, Idaho Code Title 67, Chapter 52.
3. This permit does not convey the State's title to nor jurisdiction or management of lands lying below the natural or ordinary high water mark.
4. Acceptance of this permit constitutes permission by the Permittee for representatives of the Department of Lands to come upon Permittee's lands at all reasonable times to inspect the encroachment authorized by this permit.
5. The Permittee shall indemnify and hold harmless and free from liability the Permitter for any injuries to persons or damage to property occurring as a result of the use authorized under this permit.
6. *Idaho Code* §58-1306(e) requires recordation of this permit in the records of respective county assessor's office as a condition of this permit.
7. This permit is not valid until the identification number is displayed on the outermost area of the encroachment.
8. If the activity authorized herein is not completed on or before the 6th day of May, 2008 (three years from the date of issuance), this permit shall automatically expire unless it was previously revoked or otherwise extended.

9. This permit does not relieve the Permittee from obtaining additional local or federal permits as required.
10. Mooring buoy shall be installed a minimum of thirty (30') feet away from property/riparian right lines of adjacent riparian owners and shall be located within dock line. One (1) mooring buoy per riparian owner shall be allowed.
11. Mooring buoy shall be Coast Guard approved. Bonner County Waterways requires white background with a blue stripe. For questions, contact Patti Rahn at (208)265-1438.
12. Removal and proper disposal of any preexisting or abandoned facilities is a condition of this permit.
13. This permit supersedes and voids any permit previously issued for this property.
14. Construction materials shall be natural or pressure treated utilizing only those preservative chemicals registered for the specific uses by the U.S. Environmental Protection Agency (EPA). All treated wood materials shall be produced in compliance with "Best Management Practices (BMPs) For the Use of Treated Wood in Aquatic Environments" issued by the Western Wood Preservers Institute (WWPI), July 1996. Treated materials not in contact with the water shall be completely dry before use near navigable waters. **Contact Idaho Department of Environmental Quality at (208)769-1422** for information on acceptable treatment methods and materials.
15. All construction material must be stockpiled landward of the artificial high water mark.
16. Operation of excavation equipment will be held to a minimum below the artificial high water mark. Equipment may be operated only on dry land above the present level of the lake. Construction machinery may not be operated in the water.
17. The Permittee shall maintain the structure or work authorized herein in a good and safe condition and in accordance with the plans and drawings attached hereto.
18. All construction will be done according to the specifications detailed in the attached design plan.
19. The disturbed portion of the lakebed shall be shaped to its original contour upon completion of the project.
20. Excavated material shall be sidecast to only one side of the trench.
21. Excavated material shall be replaced in the trench.

22. Excavated material not replaced shall be removed to an area above the artificial high water mark and in a position such that it will not reenter the lake.
23. The pipeline intake should be screened in a manner that would create approach velocities of not more than **0.5 feet per second** and a maximum screen mesh diameter of one-quarter inch.
24. Waterline shall be anchored to the bed of the lake with a nontoxic type of weight.
25. The Permittee must be in compliance with all Water Resource laws.
26. No water shall be diverted by the system until a valid water or appropriation permit is obtained from the Department of Water Resources.
27. As current EPA requirements dictate that disinfecting and filtration systems are to be used for minimum treatment by surface water purveyors, the department recommends that small, domestic surface water users do likewise.
28. All construction shall be completed in accordance with descriptions and methods provided unless otherwise specified. Any changes shall be approved in writing by the department prior to construction.
29. All wood chips and other construction waste shall be removed from the lake upon completion of project.
30. If any excavation occurs the operator must comply with the provisions of the Underground Facilities Damage Prevention Law (title 55, chapters 2201-2210, Idaho Code). The one-call locator service number is 1-800-342-1585.
31. The Permittee or operator shall have a copy of this permit available for inspection at all times during construction.

Attachments: legal notice for Basin 96 rights.docx

Mary,

I have attached additional notices for the Bonner County Daily Bee. I'm sorry they were not included with the previous notice. Please publish the enclosed legal notice on the dates indicated (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to the Northern Region office before 10/25/2021. Your cooperation is appreciated.

Dear Interested Party:

The Department of Water Resources (IDWR) is seeking written comment and/or recommendations from your organization regarding the above referenced water right applications. You can find a copy of the application at:

<https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>.

IDWR can finish reviewing an unprotected application as soon as the protest period has past. The protest end date is October 25, 2021. Therefore, your prompt response to this request is appreciated. If your organization desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days of the final publication.

Please contact the Northern Region office at (208) 762-2800 if you have any questions regarding the application.

MEMORANDUM

To: Water Right Application 96-9924

From: Adam Frederick AF

Date: 9/21/2021

Re: Application for a Permit to Appropriate Water within the State of Idaho.

An application for permit was received on September 20, 2021, in the name of Donald and/or Lori Morris. During data entry it was found that the overall diversion rate on line 6 was left blank. Because the only use identified was domestic for a diversion rate of 0.04 cfs, the application will be advertised with an overall diversion rate of 0.04 cfs.
