APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho
No. 96-9900

1. Applicants

Paul Hawkins
2423 Flume Creek Road
Sandpoint, ID 83864
9099362275
paulhawkins_ra@yahoo.com

2. Representatives

Submitter is one of the applicants

3. Source of Water Supply
Source : GROUND WATER

✓ Tributary to Flume Creek.

9/9/2021

See email correspondence.

4. Location of Point(s) of Diversion

POD #	Source	Tributary Of	Diversion Type	Township	Range	Section	Govt Lot	QQ/qq/Q	County
1	GROUND WATER			58N	01E	13		/NE/NW	BONNER

5. Water will be used for the following purposes:

Purposes	Season	Rate	Volume	Description
DOMESTIC	01/01 to 12/31	0.04 cfs	0.00 afa	

6. Total quantity to be appropriated is (a) 0.04 cfs and/or 0 afa

7. Proposed Diverting Works:

POD No :1
Description: Piping from creek to cistem

8. Description of Place Of Use:

DOMESTIC							
Township	Range	Section	QQ	Q	County	Govt Lot	Acres
58N	01E	13	NE	NW	BONNER		
58N	01E	13	NW	NW	BONNER

RE: Application for Permit No. 96-9899 & 96-9900

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE on 10/7/2021 and 10/14/2021. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact the Northern Region office at (208) 762-2800 if you have any questions regarding the application.

Sincerely,

Jean Hersley
Technical Records Specialist

Attachments: legal notice for Basin 96 rights.docx

Mary,

I have attached additional notices for the Bonner County Daily Bee. I'm sorry they were not included with the previous notice. Please publish the enclosed legal notice on the dates indicated (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to the Northern Region office before 10/25/2021. Your cooperation is appreciated.

Dear Interested Party:

The Department of Water Resources (IDWR) is seeking written comment and/or recommendations from your organization regarding the above referenced water right applications. You can find a copy of the application at:

<https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. The protest end date is October 25, 2021. Therefore, your prompt response to this request is appreciated. If your organization desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days of the final publication.

Please contact the Northern Region office at (208) 762-2800 if you have any questions regarding the application.

MEMORANDUM

To: Water Right Application 96-9900

From: Luke Bates 

Date: 9/10/2021

Re: Application for a Permit to Appropriate Water within the State of Idaho.

An application for permit for domestic use in the name of Paul Hawkins was filed using the online filing program, with a priority date designated by the Department of 9/1/2021. The applicant used the legal description to enter the POD, which automatically dropped the centroid center mass of the NE $\frac{1}{4}$ NW $\frac{1}{4}$, which is not accurate.

Following a phone conversation with the applicant on 9/9/2021, a revised map was emailed to Mr. Hawkins for review, in addition to a proof report for the application. The applicant replied by email on 9/10/2021 that the revised map is accurate, and the POD was moved within the same 40 acre tract prior to the application's advertising cycle.

Additionally, after initial review by Department staff, the tributary to the groundwater source was clarified to read Groundwater tributary to Flume Creek. Application 96-9900 was updated in ADHOC to clarify this change in tributary prior to the application advertising cycle.

Hi Luke,

The marked position on the map is correct.

Thank you,

Paul

Subject: IDWR application for permit 96-9900

Good afternoon Mr. Hawkins,

Following our phone conversation, I have attached a revised application for permit Proof Report & application for permit Map Product.

From the online filing, the Point of Diversion (POD – yellow centroid dot) was automatically located in the center of the 40 acre tract (NE¼NW¼). I have manually entered the POD as discussed to the location in the NW corner of the 10 acre parcel associated with this application 96-9900.

Additionally, after initial review of the groundwater source and overflow pipe allowing excess water to flow to Flume Creek, I have clarified the Source's Tributary and updated to reflect: Source – Groundwater, tributary to Flume Creek.

Please do respond to this email validating that the POD location position is correct and that the source & tributary is correct; the map is the only change made to the online filing of the application, and as the change of location is within the same 40 acre tract, there is no change in priority date to clarify the POD prior to advertising.

If there are any issues you see after review of the proof report and map product, please contact me at your earliest convenience to work changes toward finalizing 96-9899 for advertising & permitting approval purposes.

Thank you,

Luke Bates | Water Resource Agent
