RE: **Application for Transfer No. 85180**
Water Right No. 65-2502

New Appropriation Applicant's
Name:

MARCO RANCHES INC
1331 S ISLAND GLENN WAY
EAGLE, ID 83616-7107

Watermaster's Recommendation:

- a) _____ I do not oppose approval of this application.
- b) _____ I do not oppose approval of this application if it is conditioned as follows:
- c) X I oppose approval of this application for the following reasons:
The property served by Water Right 65-2502 has a history of interfering with downstream senior water rights. In my opinion adding a second point of diversion will enable the ability to interfere to an even higher degree.
- d) X Additional comments:
As an alternative I recommend, the point of diversion for water right 65-2502 should be ordered to install a lockable headgate device for proper administration because it does not remain in priority all season long. In addition a measuring device should be installed to monitor the flow rate during times when the right is in priority.
