Re: Ownership split

Water rights 37-23348 & 37-23349 were split from 37-26 & 37-27. An ownership change was filed in 2013 by BLM. At the time, the rights were not split. BLM was added as a current owner on the water rights. When WSB applications were submitted for water rights 37-26 & 37-27, the question of why these rights were not split in the 2013 OC came up. All documents were sent to our legal staff. The legal staff concluded there was not a reason why BLM's portion could not be split off. The original Notice of Change in Water Right Ownership was filed with a \$200 filing fee to split two rights. The rights were not split but the filing fee overpayment was not refunded.
