Re: Change in Ownership for Water Right No(s): 37-23209 and 37-23116

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Per your email, which we received today, we will retain both Points of Diversion on each water right (see enclosed water right reports).

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 293-9909.

Sincerely,

Jim Bitzenburg
Senior Water Resource Agent

Mr. Jim Bitzenburg,

After our phone discussion regarding PODs, we would like to retain both POD's on each right so that we can irrigate out of either well on either lot.

Thank you for your patience.

Dear Mr. and Mrs. Childers:

I am processing a *Notice of Change in Water Right Ownership* (Notice) which was submitted to our office in your name by First American Title Company of Gooding on January 19, 2021. The Notice and accompanying deed convey Lots 6 and 7 of Wood River Estates Subdivision near Gooding along with appurtenant water rights 37-23116 (Lot 6) and 37-23209 (Lot 7). Within the deed (a copy is enclosed), there is language which states that there will only be one authorized point of diversion (POD) for each water right (currently there are two authorized PODs for each water right, one on Lot 6 and one on Lot 7). The language in the deed would allow only one POD for the water right on each lot- the well that is physically located on each lot. Because you did not sign the deed, we are seeking your written intent on this issue. If you intend to maintain ownership of both lots with only one house, it may be better to retain both PODs on each right, so that you can irrigate either lot from either well (for example, if the pump became inoperable in one well, you would have a backup). If your intent is to retain one lot and sell off the other lot, then it probably would be better to have only the well on the appurtenant lot as the POD.

If you would like to give me a call to discuss this issue, feel free to contact me at 208-293-9909. Thank you and I look forward to receiving clarification from you on this situation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Bitzenburg'.
