4. If the water rights and/or adjudication claims were split, how did the division occur?
☒ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☒ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
5. Date you acquired the water rights and/or claims listed above: see deeds
6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed IRS Form W-9 for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed Lessor Designation form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).
7. This form must be signed and submitted with the following **REQUIRED** items:
☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
☒ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
☒ Filing fee (see instructions for further explanation):
o \$25 per *undivided* water right.
o \$100 per *split* water right. (see cover letter)
o No fee is required for pending adjudication
☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

WARRANTY DEED
(Correction Deed)

FOR VALUE RECEIVED, JOHN FELL STEVENSON (aka John F. Stevenson), a married man as his sole and separate property ("**Grantor**"), hereby grants, bargains, sells, conveys and warrants to Justin Stevenson, Trustee of the John Fell Stevenson, Jr. Irrevocable Trust u/a/d December 22, 2020, whose address is P.O. Box 3322, Hailey, ID 83333, and to Justin Stevenson, Trustee of the Andrea Stevenson Ward Irrevocable Trust u/a/d December 22, 2020, whose address is P.O. Box 3322, Hailey, ID 83333, each as to an undivided one-half interest (collectively, "**Grantees**"), all of Grantor's interest in the real property located in Blaine County, Idaho as described on "Exhibit A" attached hereto and incorporated herein (the "**Real Property**").

Excepting and excluding from the Real Property all improvements, structures, fixtures, and equipment currently on the Real Property.

SUBJECT TO: (i) Current general taxes, a lien in the process of assessment, not yet due or payable; and (ii) easements, restrictions, reservations, provisions, assessments, and other matters of record.

TO HAVE AND TO HOLD the said premises as tenants in common, with their appurtenances, including all water rights and ditch rights contained on "Exhibit B" attached hereto and incorporated herein, unto the said Grantees, their heirs and assigns forever. And the said Grantor does hereby covenant to and with the said Grantees, that Grantor is the owner in fee simple of said premises; that the premises are free from all encumbrances except those to which this conveyance is expressly made subject to and those made, suffered or done by the Grantees; and that Grantor will warrant and defend the same from all lawful claims arising by or through Grantor.

This Warranty Deed (Correction Deed) is granted and delivered for no monetary consideration as a re-recording of, and corrects the legal description of, the real estate intended to be conveyed by, the Warranty Deed dated December 22, 2020, by the Grantor to the Grantees, recorded in the real estate records of Blaine County, State of Idaho, on December 28, 2020 under document number 677559.

Dated this 31st day of December, 2020.

RE: O'Gara Irrigation Map POU

To Whom it May Concern:

Enclosed with this letter is a map outlining the irrigation POU within the identified PPU for the Thomas M. O'Gara Family Trust water rights. The attached map and aerial photo identifies properties irrigated, as well as properties dry farmed. Notification of the irrigation area is part of the condition required of Transfer No. 80114. Electronic shapefiles are available for the POU and PPU illustrated on the enclosed map. Please contact me for a copy of the shapefiles should those be required.

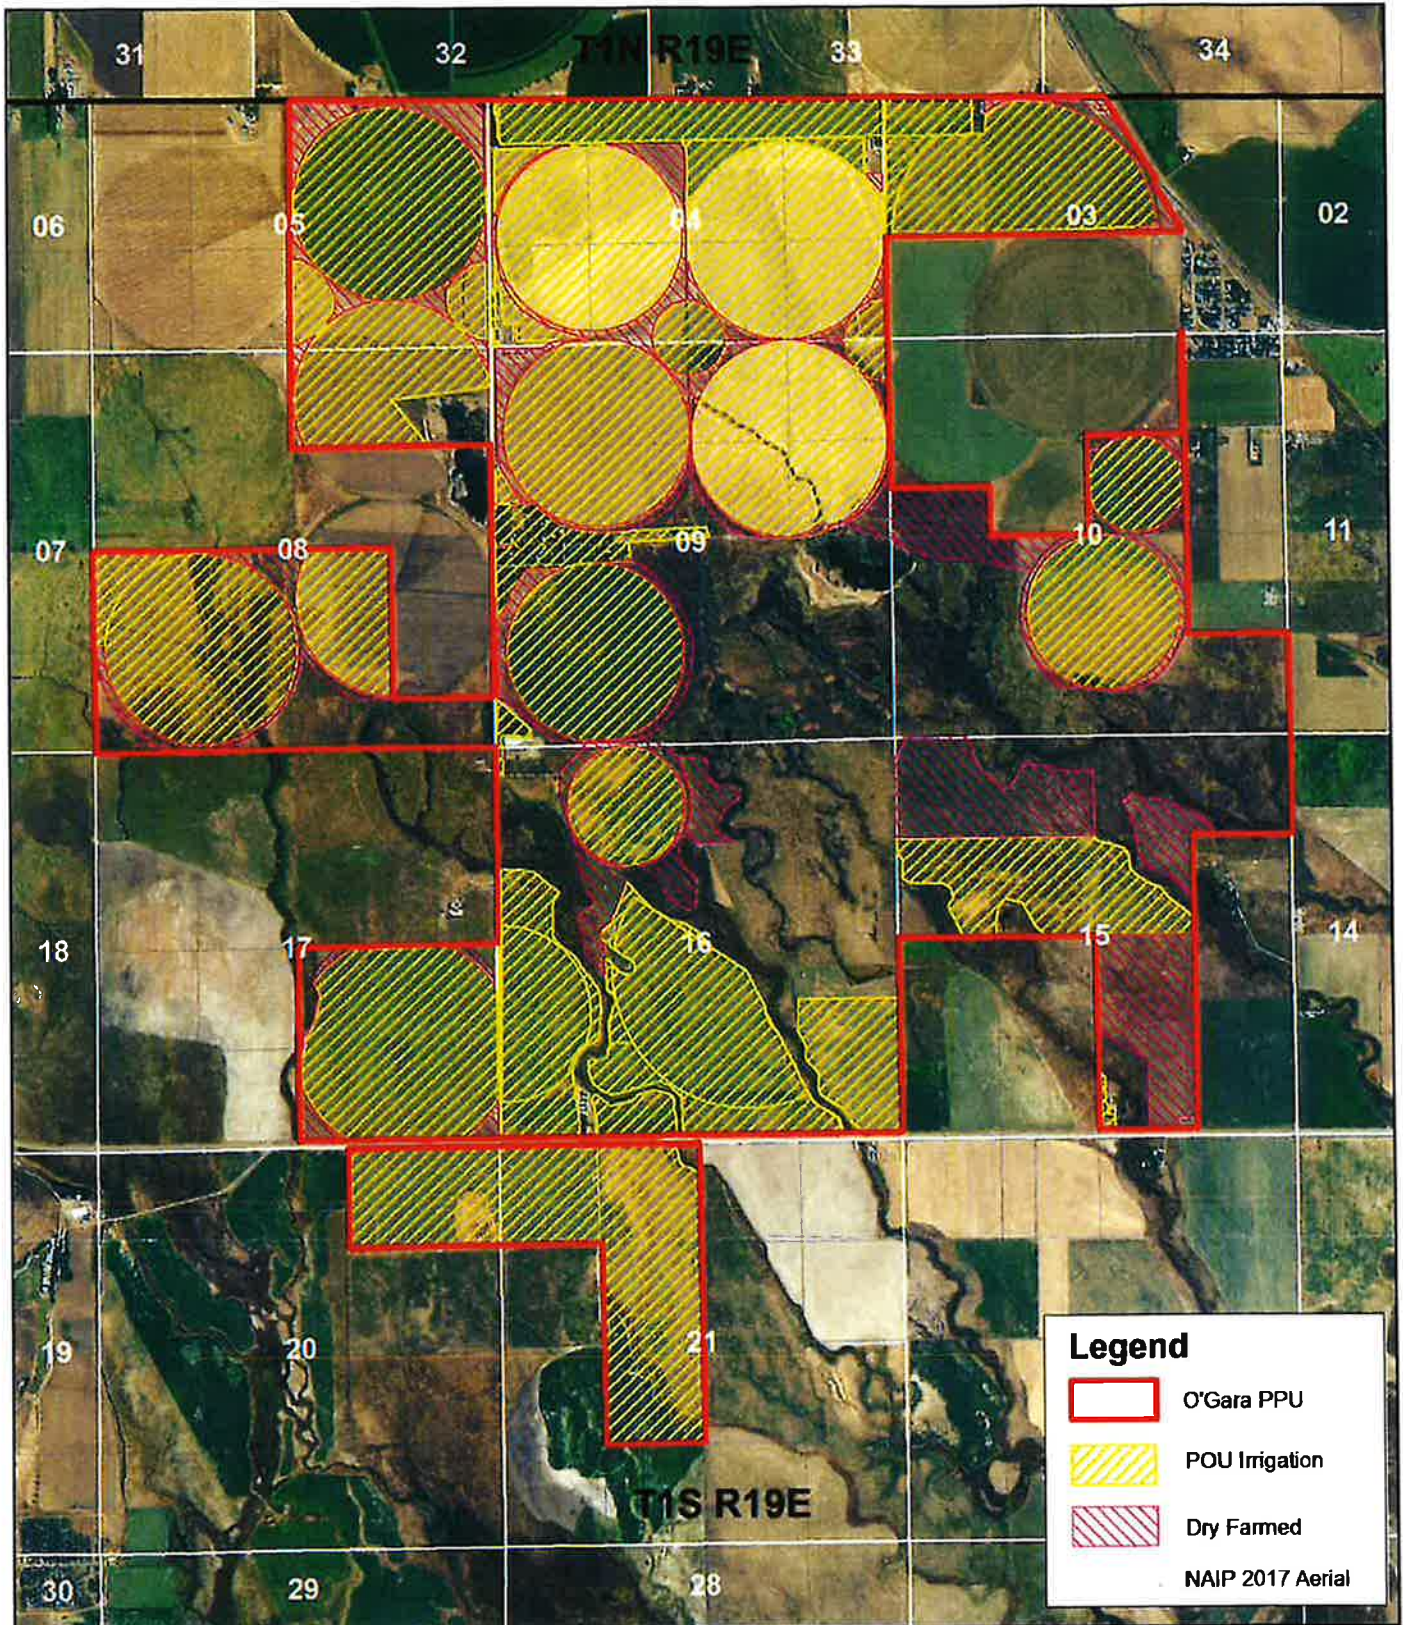

If you have any further questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Zach Hill'.

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4942.

Sincerely,

**RE: STEVENSON CHANGE OF OWNERSHIP / SILVER SPRING RANCH WATER
RIGHTS**

Dear David,

Richard Hall, the attorney for Mr. Speth, advises that he has been in touch with you about the transfer of the Silver Spring Ranch water rights from the O'Gara Trust to Mr. Speth. He suggests that we direct our change of ownership forms for the new owners of these water rights to you. As you probably know, Mr. Stevenson bought part of the Silver Spring Ranch and Mr. Speth bought part, at different times in 2020.

Enclosed is a Notice of Change in Water Right Ownership on behalf of our clients, John F. Stevenson and Belle Ranch LLC. Mr. Stevenson and Belle Ranch, LLC jointly purchased a 1400-acre parcel of property, known as the North Ranch, from Silver Springs Ranch owner Thomas M. O'Gara. Attached to the Notice is a map depicting the property purchased by Stevenson and Belle Ranch, and the remaining property of approximately 2022 acres was retained by Mr. O'Gara, and has since been purchased by Mr. Speth. Attached is a copy of the Warranty Deed conveying the 1400 acres to Mr. Stevenson and Belle Ranch, along with a Quitclaim deed for the water rights that are appurtenant to the property.

Thereafter, in early 2021, Mr. Stevenson transferred his interest in the property and water rights purchased from Mr. O'Gara to two family trusts. Mr. Stevenson's interest in the property was transferred by deed to Justin Stevenson, Trustee of the John Fell Stevenson, Jr. Irrevocable Trust u/a/d December 22, 2020, whose address is P.O. Box 3322, Hailey, ID 83333, and to Justin Stevenson, Trustee of the Andrea Stevenson Ward Irrevocable Trust u/a/d December 22, 2020, whose address is P.O. Box 3322, Hailey, ID 83333, each as to an undivided one-half interest in the real property held by Mr. Stevenson. Belle Ranch retains its ownership interest in the land and water rights. A copy of this deed to the Trusts is attached.

As a result of this second conveyance the owners of these water rights should be listed as: Belle Ranch, LLC, the John Fell Stevenson, Jr. Irrevocable Trust u/a/d December 22, 2020, and the Andrea Stevenson Ward Irrevocable Trust u/a/d December 22, 2020.

O’Gara and Stevenson agreed to split the irrigation water rights appurtenant to the Silver Springs Ranch; Stevenson and Belle Ranch received a 55% interest in each of the water rights which can be used on 1,160 irrigated acres within the 1400 acre place of use parcel purchased by Stevenson and Belle Ranch. Mr. Speth purchased a 45% interest in each of the irrigation water rights for use on 959.9 irrigated acres within the 2022 place of use of the Silver Spring Ranch that Mr. Speth purchased. Mr. Speth also purchased other water rights used for recharge, aesthetic and domestic uses and those rights will remain appurtenant to the approximately 2022 acres that Mr. Speth purchased. Stevenson and Belle Ranch did not purchase any of the recharge, aesthetic or domestic water rights on the Silver Spring Ranch. The 55%/45% split of the irrigation water rights represents the division of the irrigated property in the transaction. There are no changes in points of diversion and all the water rights will continued to be used within the O’Gara combined place of use parcel.

The O’Gara Trust Silver Springs water rights were combined into a permissible place of use. Transfer No. 80114, approved by the Department on September 29, 2015 is the most recent update to the PPU. In 2019 O’Gara provided a map of the irrigated lands within the PPU (copy attached). In the split of water rights under this transaction, Stevenson and Belle Ranch received 1400 acres of the 3600 acre place of use and 1160 acres of the 2119.9 irrigable acres. The new permissible place of use for the Belle Ranch/Stevenson water rights is illustrated on the Attachment “Silver Spring Ranch Proposed Stevenson Property, showing the Stevenson parcel purchased from the O’Gara Trust. The remaining portion of the irrigated acres and PPU were then transferred to Mr. Speth.

Because the water rights are split between Stevenson and Speth on a 55/45 basis, I am enclosing a check in the amount of 55% of the change of ownership fee. I have spoken with Mr. Hall, he is submitting a check for 45% of the change of ownership fee, and these two changes in ownership should be processed together. Since there are 24 water rights, the total fee is \$2,400.00 and 55% is \$1,320.00. See Exhibit A for list of the water rights involved.

A portion of each of the water rights was leased to the Water Supply Bank by O’Gara. However, that portion of the water rights leased to the Water Supply Bank is not included in Stevenson’s purchase. The land dried up for the Water Bank lease is located upon the southern 2022 acre place of use portion of the Silver Springs Ranch property purchased by Mr. Speth.

The combined use limitations for the irrigation water rights establishing a rate or volume per acre of irrigated land will not change under this transaction. For example, Water Right 37-2502 contains a condition providing:

Rights 37-804, 37-2502, 37-2568, 37-2599, 37-2604, 37-2616, 37-7758, 37-20635, 37-20637, and 37-20639 when combined shall not exceed a total diversion rate of 36.41 cfs,

a total annual maximum diversion volume of 7028.7 af at the field headgate, and the irrigation of 2119.9 acres.

We expect that the Department would divide the rights into A and B parts or give each split right a new number. The new combined use condition for the portion of Water Right 37-2502 that Stevenson is acquiring (for example new right 37-2502A) would state that these listed Rights shall not exceed a total diversion rate of 20.03 cfs [55% of 36.41 cfs], a total annual maximum diversion volume of 3865.8 af [55% of 7028.7 af] at the field headgate and the irrigation of 1160 acres. This new right after the split for Mr. Speth would be a mirror image of that condition except using 45% and 959.9 acres.

The permissible place of use is divided between the two land owners for the subject water rights as shown in the application and that would result in the two separate PPUs, one for 1400 acres and one for 2200 acres.

Please let me know if you have any questions or if you need any additional information.

Very truly yours,

RE: BELLE RANCH/STEVENSON IRRIGATION MAP POU

Gentlemen,

In 2015, the water rights for the Thomas O’Gara Family Trust property known as Silver Spring Ranch were combined into a single permissible place of use of 2119.9 irrigated acres within a permissible place of use of 3437 acres. John Stevenson and Belle Ranch purchased 1400 acres of this permissible place of use and irrigation rights for 1160 acres within the 1400 acre permissible place of use. At the same time John Stevenson and Belle Ranch LLC purchased 131 acres of land with 106 irrigable acres from Syringa Ranch LLC. This land is immediately adjacent to the land purchased from the O’Gara Trust. Recently, John Stevenson transferred his interest in both properties to the John Fell Stevenson, Jr. Irrevocable Trust u/a/d December 22, 2020 and to the Andrea Stevenson Ward Irrevocable Trust u/a/d December 22, 2020. Copies of the change of ownership filings that were just made on these water rights are attached to the transfer application for your reference.

Contemporaneously, the owners have filed a transfer to consolidate the PPU of the two purchases into a single PPU. Given that this movement of water relates to the larger PPU, this notice depends on the transfer.

By this notice, Stevenson and Belle Ranch wish to advise the Department, consistent with the requirements of transfer no. 80114, that there will be certain changes to irrigated acres within the 1400 acre permissible place of use from those changes shown on the Irrigation Map POU submitted by Ecosystem Services LLC on behalf of the O’Gara Trust. In addition the owners are providing notice that there will be a change in location of the irrigated lands within the larger 1561 acre PPU under the transfer. Attached is a map illustrating those changes being made by Belle Ranch/Stevenson. Water will be moved off a portion of the pivot in the SW ½ of Section 8, Township 1 South Range 19E and moved onto smaller pivots located in the south half of Section 8, in the SE1/4 and SW1/4. Water will also be moved to irrigate 1 acre of trees along Price Lane, 2.5 acres of trees along Gannet Road and 0.5 acre around the house off Baseline

Road as shown on the map. In addition, the land in the NW portion of SW1/4 of Section 8 that is outside the pivot is being dried up and the water moved to a pivot under the former Syringa Ranch property that needs water.

Please contact me if you have any further questions.

Very truly yours,

RE: O'Gara Irrigation Map POU

To Whom it May Concern:

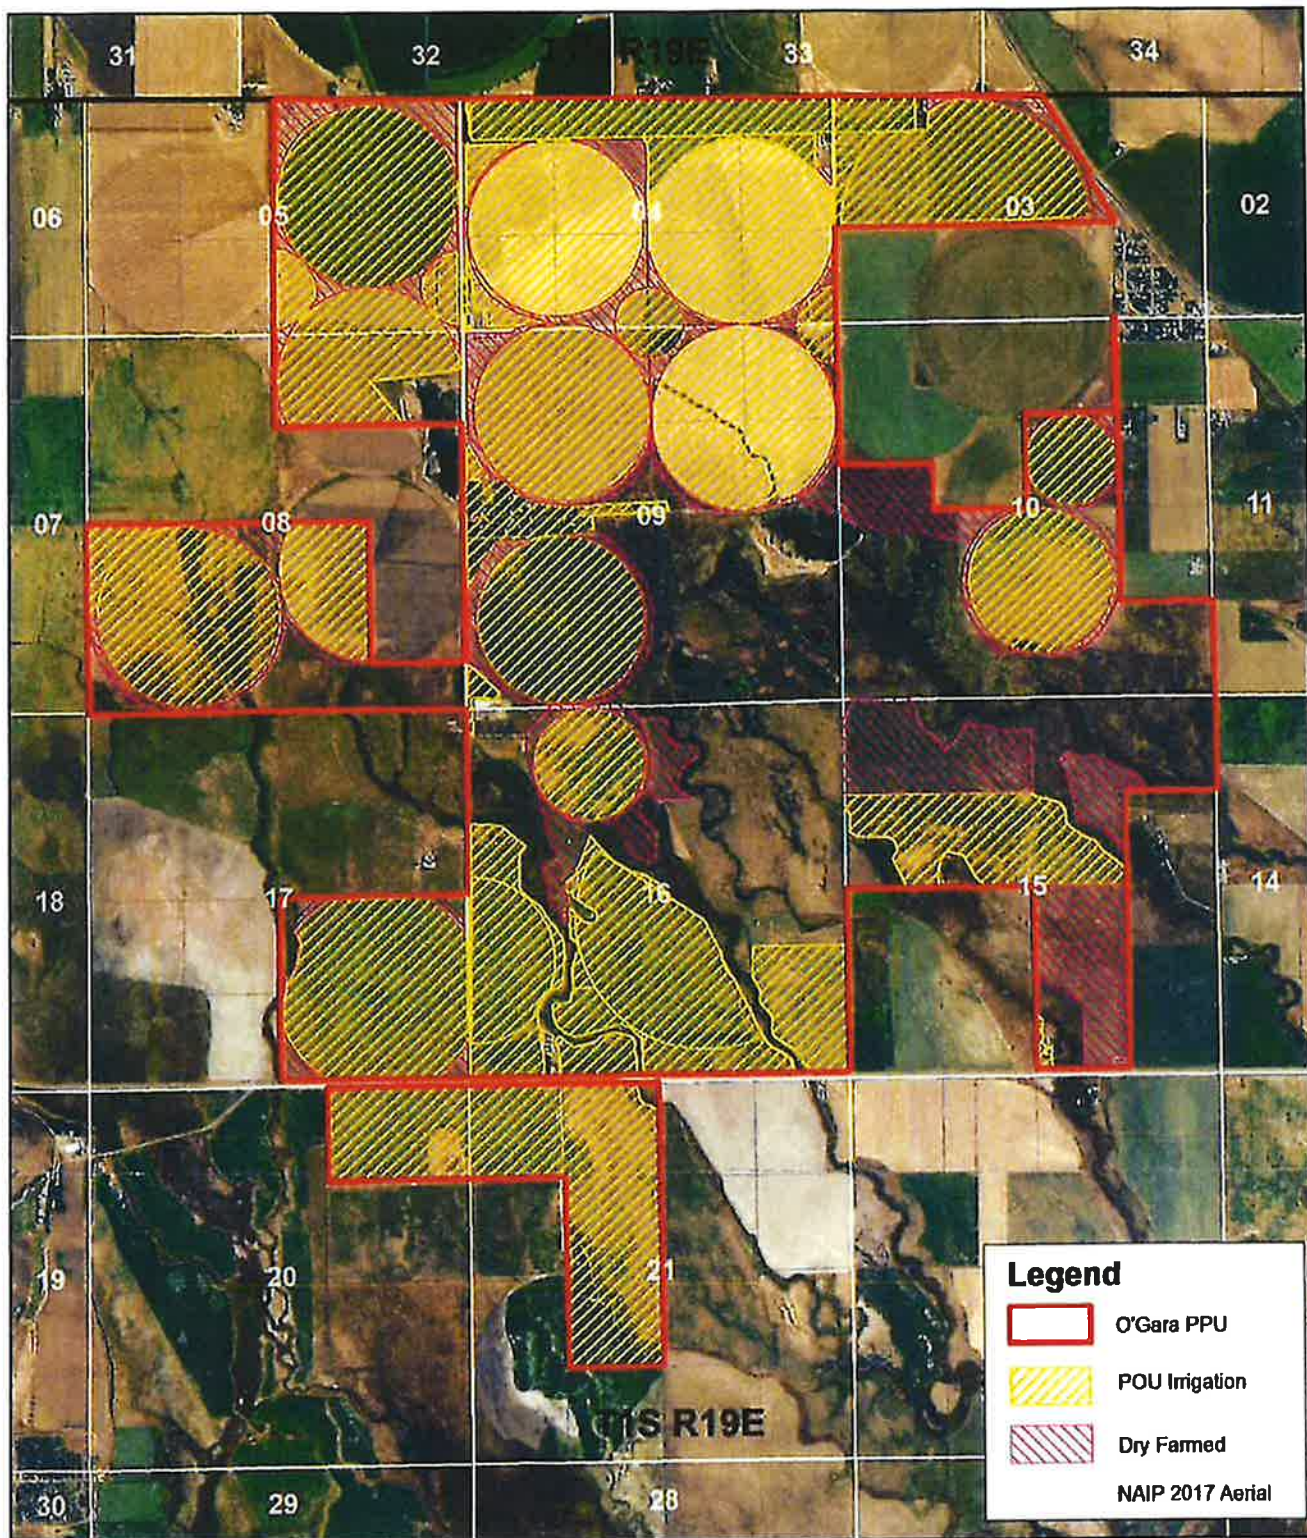

Enclosed with this letter is a map outlining the irrigation POU within the identified PPU for the Thomas M. O'Gara Family Trust water rights. The attached map and aerial photo identifies properties irrigated, as well as properties dry farmed. Notification of the irrigation area is part of the condition required of Transfer No. 80114. Electronic shapefiles are available for the POU and PPU illustrated on the enclosed map. Please contact me for a copy of the shapefiles should those be required.

If you have any further questions, please do not hesitate to contact me.

Sincerely,

Zach Hill
