The point of diversion indicated on the map is a little off but it is on the correct property. The well is located approximately 20 feet north of the northwest corner of the house. Thanks

As we discussed, I have attached a map that more clearly depicts your parcel and identifies a location for the well. I realize the well may be located somewhere else on your property, but as long as it is in the NWNW, this map is OK. Please write me back and let me know if the map accurately depicts your parcel.

Thanks,
