July 26, 2021

Water Right: 31-11339

Author: bjordan

Subject: Service Boundary Update

On July 1, 2021 Independent Water Users of Mud Lake Inc. filed application for transfer 85085 proposing to update the service boundary for water rights 31-10965A and 31-11339. This year House Bill No. 182 was enacted which added a new section to Idaho Code 42-222B enabling corporations organized for the operation, control, or management of an irrigation project or canal system to update their water right place of use service area without the need to file an application for transfer pursuant to Idaho Code 42-222. The place of use service boundary for Independent Water Users of Mud Lake Inc. will be updated in accordance to the change in statute. The transfer application contains a map and a land list of the canal company's service area. Transfer application was signed by Keith Shulberg who is the secretary for the canal company. Place of use Service boundary will be updated based on the signed transfer application. A copy of the transfer application will be scanned into the water right backfile for 31-11339 and 31-10965A. The filing fee for the transfer application will be reimbursed.

**APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued**

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:
Ground water is pumped from measured wells located at Buck Springs across a weir into Camas Creek. Camas Creek flows into Mud Lake where members of Independent Water Users divert their water for irrigation.

- b. Who owns the property at the point(s) of diversion? N/A POD's Remaining the Same
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien:

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?
If yes, ☐ complete [Attachment WSB](#).
- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:
Adjusting the place of use boundary to match water users property served by Independent Water Users of Mud Lake irrigation system. The total number of authorized irrigated acres, rate of diversion and volume will not change. This application corrects the place of use service boundary.
- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:
Mud Lake Water Users and the Level Canal Co Inc water rights overlap the place of use boundary. Independent Water Users service boundary currently covers property not served by the canal system and does not cover land that should be included. This application will fix the discrepancy.
- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:
