1. csaxton 5/31/2006 No Competing claims
Water master records show delivery of right 67-357, but the records list the priority date and diversion rate of 67-358. So despite it saying this right is delivered in the WM records, it really is not. However, this right is not shown to be delivered in the records. There were no competing claims on this right so I am recommending in full to the claimant despite that historically, this right most likely would have been spread around the decreed 160 acres in a PPU with 67-356, 67-357, & 67-358.
