Michelle,

Department of Water Resources
Eastern Region

In case you don't remember me, I applied for a water transfer using VRI pivot areas this spring. I received a letter in the mail a couple of weeks ago stating I needed to prove that I have the ability to not water the rock pile areas and that I agree to installing flow meters at my pivot sites. The files are too big to share in a single email so I am sharing this link that includes all of the proof that was requested.

https://1drv.ms/u/s!ArD50IDpNcGhwWOk6nFV-wKV_t4I?e=5aszug

I also will agree to install the flow meters if my request is granted. The letter did not include anywhere to send this information so that is why I am sending it to you since you helped me with the initial request.

Ryan
