5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:
Water is diverted through the 3-in-1 Ditch from the Big Lost River. It is diverted from the ditch into the irrigation system including two pivots. The ditch headgate is managed by a water master and should already be measured.

- b. Who owns the property at the point(s) of diversion? BLM
 If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
Historical diversion location.

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?
If yes, ☐ complete Attachment WSB.
- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:
No change. The water rights are already appurtenant to this property, but were described as separate places of use. This transfer will define the place of use more accurately and combined the surface rights into one shared place of use instead of separate smaller ones.

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:
This property is also overlapped by ground water rights 34-12378 and 34-13829. These rights will continue to be used on the proposed place of use. Many other rights are diverted through the same point of diversion, the 3-in-1 ditch. No changes are proposed to the diversion location.

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No
