CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 7 acres within the authorized place of use in a single irrigation season.
2. This right is limited to the irrigation of a specific 7 acres within the 15 acre place of use authorized by this right in a single irrigation season. The specific 7 acres to be irrigated by the right holder are shown in the electronic shape file associated with this right in the geographic information system component of the water rights database maintained by the department. Before changing the 7 acres to be irrigated within the 15 acre place of use, the right holder shall submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor exceed a combined annual maximum diversion volume of 31.5 af at the field headgate for the place of use.
4. This right when combined with all other rights shall provide no more than 4.5 afa per acre at the field headgate for irrigation of the place of use.

Transfer No. 84839

WATER RIGHT NO. 63-34904

As Modified by Transfer No. 84839

CONDITIONS OF APPROVAL

5. The right holder shall make full beneficial use of all surface water available to the right holder for irrigation of lands within the authorized place of use for this right. The right holder may divert ground water under this right to irrigate land with appurtenant surface water rights when the surface water supply is not reasonably sufficient to irrigate the place of use for this water right or is not available due to drought, curtailment by priority, or the seasonal startup and shutoff or maintenance schedule for canal company or irrigation district deliveries. The right holder shall not divert ground water for irrigation purposes under this right if use of the surface water supply is intentionally discontinued or reduced (for example abandoned, forfeited, sold, disallowed by court decree, or leased to the Water Supply Bank), or is not deliverable due to non-payment of annual assessments, without an approved transfer pursuant to Idaho Code § 42-222 or other Department approval.
6. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
7. Right holder shall comply with the drilling permit requirements of Idaho Code § 42-235 and applicable Well Construction Rules of the Department.
8. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
9. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
10. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions concerning the enclosed information, please contact me at (208) 334-2190.

Sincerely,

Denise Lauerman

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Scott and all,

Good afternoon – Dean and I spoke yesterday, and in an effort to keep things moving, please see the attached Iron Mountain Estates CAD base linework file for your use in converting to a shape file. We have converted this to a KMZ file in the past but wanted to give you the option to do what you need with CAD base. This attached shows the hard-scape including paved areas, curb, gutter, sidewalk and house footprints (we considered the 30% FAR (floor area ratio over the lot) house footprint to get you to the approx. acre irrigable area.

Please call if you have questions. If there is something else needed, let me know but this should get you what you need as requested to wrap this up.

Kind regards and have a good weekend,

A shapefile refers to the type of file used in GIS for the shape. If you are not looking at the file in ArcGIS, it will actually show up as a series of 6 files: .dbf, .prj, .sbn, .sbx, .shp, and .shx. Typically, if the drawings were created in CAD, they can pretty easily be exported to a shapefile or to a GIS geodatabase. Conversely, if you have a CAD file available, I could take that and convert it to a shapefile myself in GIS.

Subject: Information for Transfer 84839

Hello Todd,

The Department is very close to approving Transfer 84839 however, because the Transfer requests the establishment of a permissible place of use (PPU), there are a couple last pieces of information needed before final approval. First, because parcel at the place of use where water right 63-34904 is to be moved to has historically been irrigated as an agricultural field using Farmers Union Ditch Co. water, I need a more detailed description as to how the groundwater water right will be used in conjunction with the surface water, especially if the parcel is to continue being irrigated as an agricultural field prior to development. The Department needs assurance that, if the parcel is fully

irrigated for any amount of time prior to subdivision development, how will it be assured that only a 7 acre portion of the 15 acre field will be irrigated with water from right 63-34904.

Second, because the Transfer will create a 15 acre PPU, a shape is required that designates what 7 acres within the PPU will be irrigated upon completion of development. The shape can be updated upon completion of development, however the approval requires some representation of what is expected. If you have a subdivision plat map for the current plan, this would suffice.

The description and plat map or other form of irrigation shape representation can be sent to me via email for more timely processing, if preferred. Once these last two pieces of information are received, final approval should be able to move forward. Feel free to contact me if you have any further questions

MEMORANDUM

TO: Transfer No. 84839
FROM: Anna Kaiser
DATE: July 19, 2021
RE: Evaluation of Application

Transfer no. 84839 proposes moving the 7 acres of irrigated land under water right 63-34904 into a 15-acre permissible place of use (ppu) in a neighboring parcel. The transfer also proposes moving the single point of diversion (POD) to the new ppu site.

The site is located in Boise approximately a half of a mile west of the corner of State Hwy 16 and W Floating Feather Rd.

Contact person for the applicant is Todd Campbell Construction Inc. PO Box 140298, Boise, ID 83714-0298. tddcampbell@gmail.com. (208)-942-8607.

Summary of Information Submitted

Authority to File:

Water right no. 63-34904 is currently in the name of Todd Campbell Construction Inc. Todd Campbell signed on behalf of Todd Campbell Construction Inc. Idaho Secretary of State Records verify Todd Campbell is the current owner of Todd Campbell Construction Inc., giving him signing authority.

Water Right Validity:

Water right 63-34904 was split from 63-4690 in April, 2020. Validity of right 63-34904 will therefore be determined based on the validity of parent right 63-4690. The partial decree for 63-4690 was issued on February 16, 2007. The right is presumed to be valid since beneficial use has occurred within the last five years. Beneficial use confirmed by department aerial imagery, landsat images, google earth images, or other evidence. Evidence of beneficial use does not need to be added to the file since it is an IDWR product available to other staff.

Injury to Other Water Rights:

No injury to surrounding rights is anticipated. The new well is proposed in relatively close proximity to the old well, so no effects are expected to local groundwater levels.

Enlargement of Use:

There are no concerns for enlargement. Upon approval of the transfer, water right 63-34904 will be conditioned to limit the irrigation to 7 acres. The right will also be conditioned as supplemental to any surface water water utilized with the proposed place of use.

Local Public Interest:

No evidence suggests changes proposed by this transfer conflict with the local public interest.

Beneficial Use/Conservation of Water Resources:

The transfer proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.
