Hello Jean, I left a phone a phone message and have not heard your response. I checked the foot valve on my yard pump and it has screen with very small holes built in as part of the valve. I hope this clears up the question of a fish screen. Randall Schuler

Dear Permit Holders:

The Department of Water Resources is in the process of reviewing your permit for licensing. During the review, it was discovered that additional information is needed.

Question 7 on the Statement of Completion asks if a fish screen is required. You marked "No." There is a condition on your permit that states, "*Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game*". Has this condition been met?

Please respond within 14 days or the Department may take steps to void this permit. If you have any questions, please contact me. Thank you.
