STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

Ident. No. 79-14286DEPARTMENT OF
WATER RESOURCES

1. Name of applicant(s) Idaho Power Phone (208) 388-2602
Name connector (check one): ☐ and ☐ or ☐ and/or
Mailing address PO Box 70 City Boise
State ID ZIP 83707 Email KKaeDavis@idahopower.com
2. Name of representative, if any Kresta Davis Phone (208) 388-2602
Mailing address PO Box 70 City Boise
State ID ZIP 83707 Email KKaeDavis@idahopower.com
- a. ☒ Send all correspondence for this application to the representative and not to the applicant OR
☐ Send original correspondence to the applicant and copies to the representative.
- b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☒ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.
3. Source of water supply Ground Water which is a tributary of _____

4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
22N	3W	28	L2		SW	NE	Adams	Ground Water	

5. Water will be used for the following purposes:

Amount 0.04 for Domestic purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

6. Total quantity to be appropriated is (a) 0.04 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).

7. Proposed diverting works:

- a. Describe type and size of devices used to divert water from the source. Water will be diverted from a 6 - 8 inch well and delivered through pipelines to the building.
- b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
- c. Proposed well diameter is 6 - 8 inches; proposed depth of well is 200 feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
- e. If well is already drilled, when? _____; drilling firm _____;
well was drilled for (well owner) _____; Drilling Permit No. _____.

For Department Use

Received by Ku Date 4.2.21 Time 11:00 Preliminary check by DRB
Fee \$ 100 Received by Ku Receipt No. C110155 Date 4.2.21

8. Description of proposed uses (if irrigation only, go to item 9):
- Hydropower; show total feet of head and proposed capacity in kW. _____
 - Stockwatering; list number and kind of livestock. _____
 - Municipal; must complete and attach the Municipal Water Right Application Checklist.
 - Domestic; show number of households One Maintenance Building with up to 14 employees per day.
 - Other; describe fully. _____
9. Description of place of use:
- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
 - If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
22N	3W	28			D											D			
					GL 2											GL 4			

Total number of acres to be irrigated: _____

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? None
11. a. Who owns the property at the point of diversion? USDA Forest Service
- b. Who owns the land to be irrigated or place of use? USDA Forest Service
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: The project is located within the FERC boundary and is built with concurrence from the Forest Service.
12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. This water right will supply domestic water to a new maintenance facility on Eagle Bar near Hells Canyon Dam. Water use at facility will include bathrooms, sinks, and minor shop and outdoor use. The septic is designed for up to 14 people per day. No irrigation will occur under this water right.
13. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).
14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

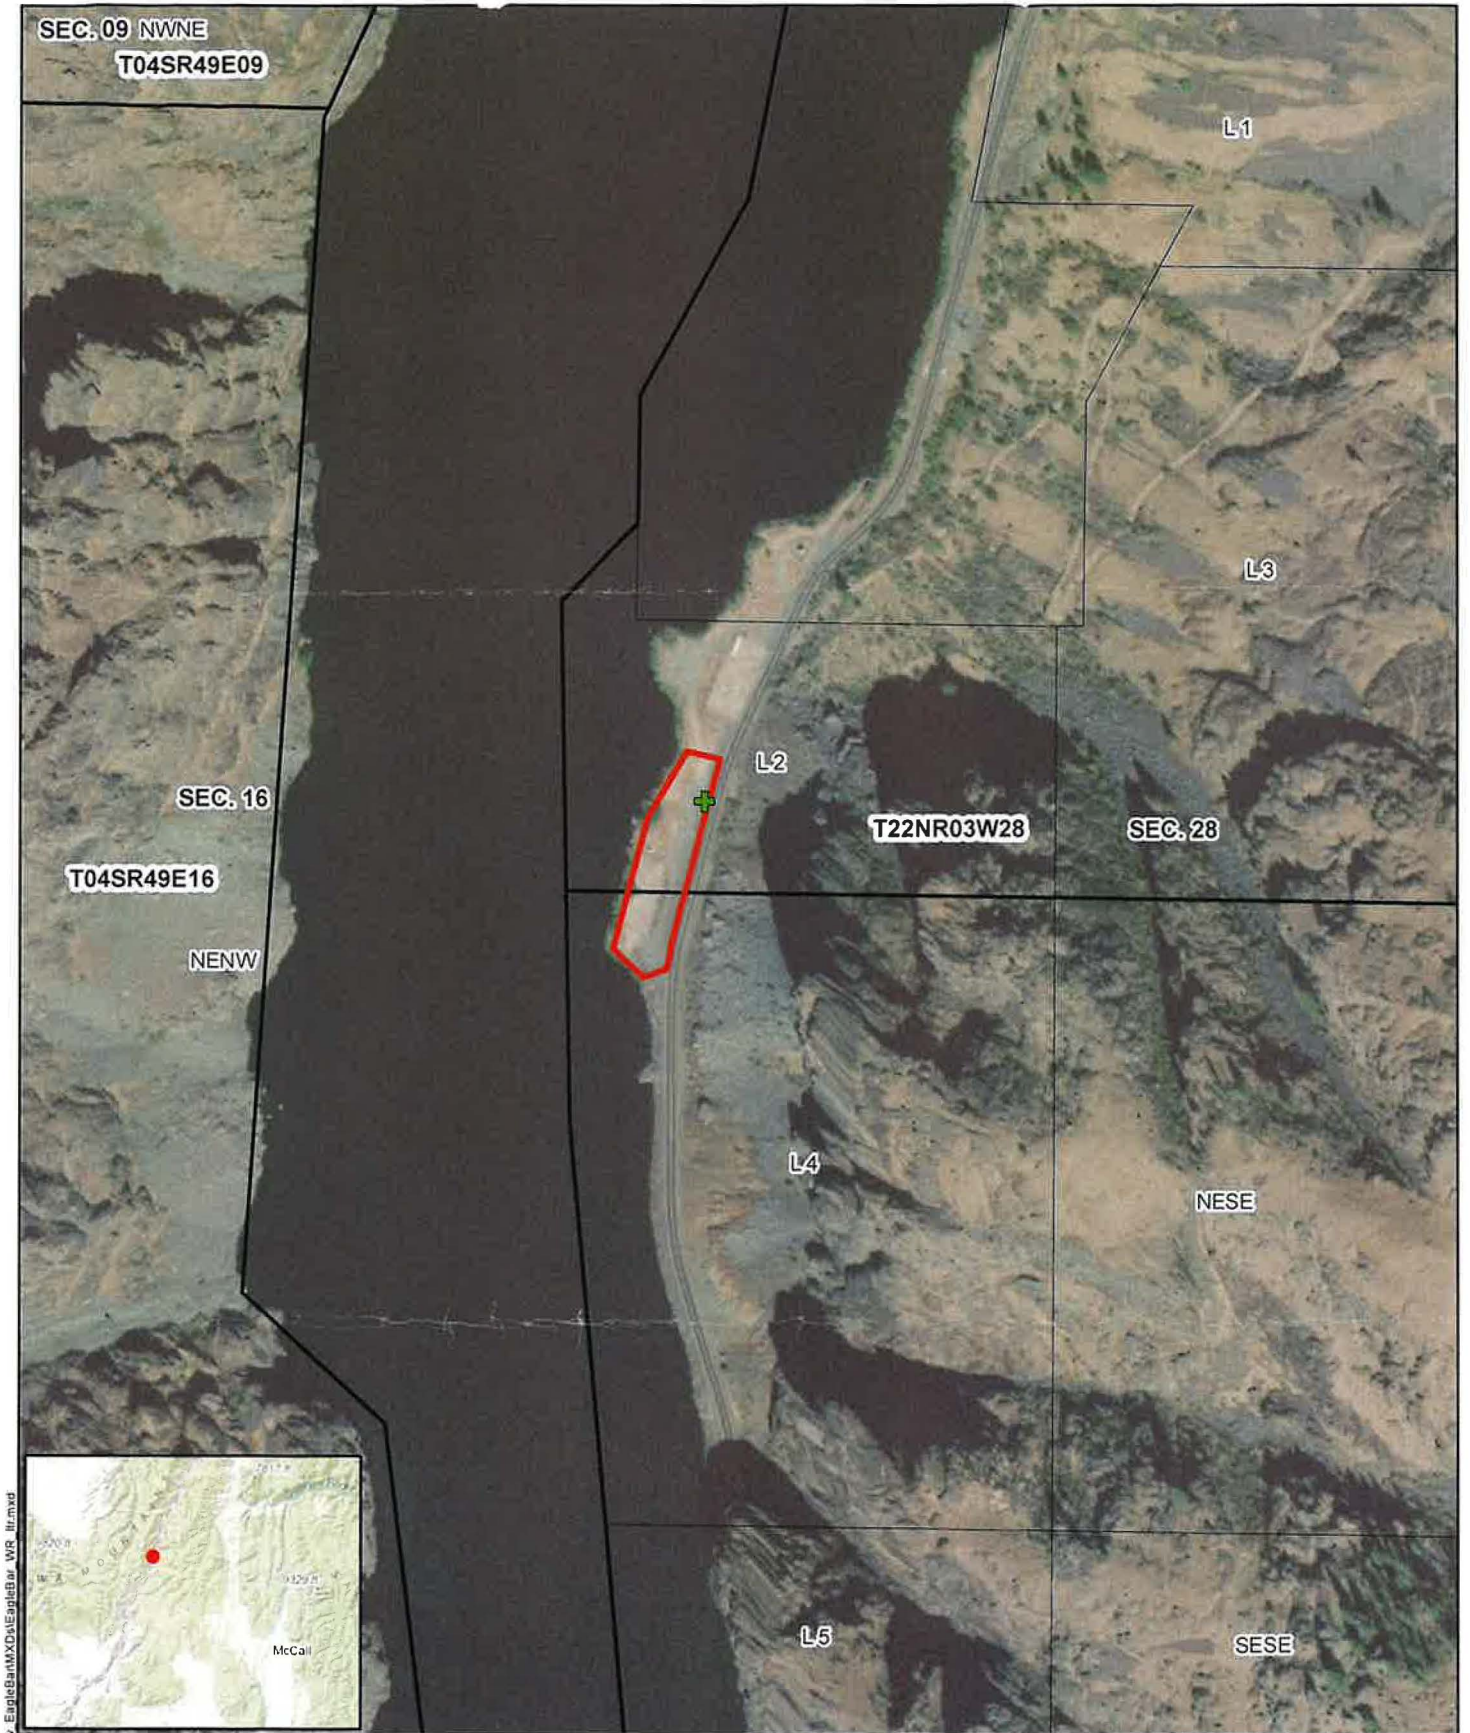

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

RE: Application for Permit No. 79-14286

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the THE RECORD on 9/1/2021 and 9/8/2021. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Jean Hersley
Technical Records Specialist

RE: Application for Permit 79-14286

Dear Interested Party:

The Department of Water Resources is seeking written comment and/or recommendations from you regarding the above referenced application for permit. A full description concerning property location may be found

at: <https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>.

Please note, this application was filed by Idaho Power. The application stated the facility was being built "with concurrence from the Forest Service."

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If you desire to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication.

Please contact this office if you have any questions regarding the application.

Sincerely,

A handwritten signature in black ink that reads "Jean Hersley". The signature is fluid and cursive, with the first name "Jean" and last name "Hersley" clearly distinguishable.

MEMORANDUM

Date: August 3, 2021
To: WR No. 79-14286
From: Dave Betts
Re: Pre-Advertisement Application Review

Idaho Power Company (applicants) submitted an application for permit on April 2, 2021.

Applicant: The application was signed by Kresta Davis, Senior Manager for Water Resources and Policy for Idaho Power. Davis has previously submitted applications on behalf of Idaho Power Co. The application included a letter from Ryan Adelman, Vice President of Power Supply, who confirmed that Davis is authorized to sign on behalf of Idaho Power Co.

Source & Diversion System: The proposed source is groundwater. The applicants describe the proposed diverting works as a 6 to 8 inch diameter well, with a proposed depth of 200 feet and delivery from the well through pipelines to the maintenance building.

On April 29, 2021, the Department of Water Resources (IDWR) received a well driller's report for well drilling permit no. 898004 describing the construction of a domestic well that was completed on April 5, 2021. On August 3, 2021, David Blew (Idaho Power Co.) confirmed via email that the well report pertains to the proposed point of diversion. The well is identified with metal tag no. D0088860.

Water Use: The applicants are requesting domestic use of groundwater for restrooms, sinks, and minor shop and outdoor uses. The new facility will be near the Eagle Bar recreation site near Hells Canyon Dam. The proposed use is designed to provide water to one maintenance building for up to 14 employees per day. The proposed use does not include irrigation.

The applicants describe the location of the proposed place of use as within the FERC boundary, on property owned by the US Forest Service. The facility is being built "with concurrence from the Forest Service." The US Forest Service will be notified of the application at the time of advertising.

Additional Comments: No additional concerns were identified prior to advertising.

Betts, David

Subject: [EXTERNAL]Well for domestic use at Eagle Bar maintenance facility (App. for permit 79-14286)

KEEP IDAHO POWER SECURE! External emails may request information or contain malicious links or attachments. Verify the sender before proceeding, and check for additional warning messages below.

Hello David,

I am preparing an application for permit from Idaho Power for advertising (Application no. 79-14286). I am reviewing the data entry for this application, and I found a separate well construction report that was submitted to IDWR shortly after IPCo's application for permit. I have attached a copy of the report for your reference.

I would assume that the well driller's report pertains to Idaho Power's application, but I wanted to make sure before making changes to the GIS database. Is this well (well tag no. D0088860) the proposed point of diversion?

Thanks you for your assistance,

--
