1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

WATER SUPPLY BANK LEASE CONTRACT No. 1420

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Right No. 22-2175A is also diverted through point of diversion described above.

FOR WATER RIGHT 22-2175A & 22-2175B**

Dear Lessor:

Water rights **22-2175A & 22-2175B** were leased into the Water Supply Bank (Bank) as of January 1, 2021, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2025**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Hi Jean,

I do have one concern with allowing Richard Smith to lease water to the WSB. Currently Richard has approximately 20 acres located in the NENE Section 29, 06N, 40E, not covered by a water right. He obtained a WSB rental for these acres last year. I don't see a rental agreement for these acres in 2021. I don't oppose Richard leasing these water right to the bank as long as he submits a rental application for the approximate 20 acres not covered by a water right. If he doesn't submit a rental application then I feel that approximately 20 acres of his proposed lease agreements should not be accepted into the bank. Below is a map showing the 20 acres not covered by a water right.

Thanks,

Blake

13	Narrative: The Department received this application on June 2, 2021. The applicant wishes to place a portion of the right in the Bank. This right was decreed in 2008. this right was in the Bank in 2015, 2019-2020. The land appurtenant to this right has been subdivided. Mr. Smith withheld the water rights in the sale of the land. There is a deed in the file for one of the homes, so we assume all the parcels are the same. Aerial imagery suggests some irrigation took place in 2014 & 2015. Forfeiture is not an issue. We are not sure where the subdivision gets the water for the lots, but they will continue to receive water. This water right is currently within WD 100, ESPA-GWMA and Madison GWD.
