PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 85-15804

Dear Permit Holder:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

A condition of this permit may not have been complied with according to the information you have provided on your proof form.

Condition no. 4 of this permit states:

"Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game."

You must comply with conditions of the permit without delay and prior to the field examination. I have enclosed a copy of this permit for your information. If you feel the condition is unnecessary you may submit a written request to the Department asking the requirement be waived.

The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

Debbi Judd

Thanks. Can you send this opinion to the Idaho Department of Water Resources? I think that would satisfy their concerns with my application.

Their email address is www.idwr.idaho.gov and my permit number is 85-15804.

Just got back from Black Mountain as the USFS volunteer fire lookout. Fishing in Black lake was great. I was asked by one visitor how often you stock the lake. I told him that you don't stock high mountain lakes any more. The populations are self sustaining now. Was I right on that. He had caught a 20 inch hook jaw cutthroat and I told him it was good he removed that one as it was completely piscivorous. Was I right on that or did I commit the sin of "Fake News"?

Thanks for you help with my water right and pond develop[ment]. When would you like to schedule a quail hunt and visit the Double A ranch?

Clark

Hi Clark. I reviewed the location of your pond and your proposed withdrawal area. I agree with your assessment that this is not a fish-bearing stream and screening of your pump is not necessary from a fish standpoint.

Leaving today for Black Mountain as a lookout volunteer. Sending this from my PC just in case none of the I phone emails reached you.

Will return in 14 to 21 days. Thanks for your help with the IDWR and my development. Will get back to you regarding fish stocking in the pond.

Quail season should be open by then and perhaps I can offer up a quail hunt to you as a reward for your assistance. I do believe in combining work with pleasure whenever possible.

Sincerely,

Clark Christiansen
