Memorandum

To: Water Supply Bank Lease 1384
From: Cody Parker
Re: Overlapping Irrigation Rights City of Hailey
Date: July 12, 2021

The Blaine County School District #61 proposes to lease into the Bank 20.8 acres of irrigation from the Big Wood River (see table below). They intend to keep irrigating 9.1 of those same acres under water right 37-20831 and presumably another ~2.6 acres from City of Hailey Municipal Water rights.

Table 1

	Water Right	Rate	Acres	Volume
	37-183A	0.48	20.8	NA
	37-298C	0.14	20.8	NA
	37-334E	0.21	20.8	NA
	37-577BX	0.21	20.8	NA
TOTALS		1.04	20.8	72.8
	37-20831	0.21	9.1	27.3

Figure 1

The area in red above is the place of use for the 4 water rights included in the lease. Dotted area is the irrigated acreage under 37-20831. Striped area appears to have been irrigated during the prior lease of these rights, presumably under other MUNICIPAL water rights.

Timeline

2010

Right 37-20831 (City of Hailey) was moved to this location through transfer 76168.

2011

Rights 37-183A, 37-298C, 37-334E, 37-577BX were decreed by the SRBA for irrigation at this location.

2016

WSB lease proposal submitted for water right 37-20831. The lease application was ultimately denied. Department review determined that Transfer 76168 had not been accomplished and there was not sufficient evidence to show that 37-20831 was used for irrigation for a period of 5 years preceding the lease application.

Water rights 37-183A, 37-298C, 37-334E, 37-577BX were leased into the Water Supply Bank for the years 2016 - 2020.

2016 - 2020

11.7 acres of the 20.8 authorized for irrigation under 37-183A, 37-298C, 37-334E, 37-577BX are irrigated while these rights are in the Bank. 9.1 acres are irrigated under 37-20831 while the other 2.6 must be irrigated under other municipal rights owned by the City of Hailey.

Discussion and Conclusions

Water rights 37-183A, 37-298C, 37-334E, and 37-577BX have all been used to irrigate the same 20.8 acres at some point. They were all decreed at this location and no transfers of these rights have been filed to change the place of use subsequent to the decrees.

Water right 37-20831 has been used to irrigate 9.1 acres of the 20.8 acres authorized by the other 4 surface water rights. Municipal rights appear to have been used to irrigate roughly 2.6 acres of the 20.8. The use of 37-20831 (and presumably the Municipal rights) has apparently only occurred since the other 4 rights have been leased to the Water Supply Bank since 2014. Thus **37-20831 has never been used simultaneously with the other four water rights from the Big Wood River.**

All the above-mentioned rights have been used to irrigate their respective places of use so there is no question as to what land the described irrigation is appurtenant to on the ground. Together, all of these rights combine to irrigate the 20.8 acres of land.

It is clear that the four Big Wood River rights, and 37-20831 are appurtenant to the same ground. The beneficial use of water authorized under both sets of rights includes *the same acres* though the Big Wood River rights also authorize irrigation of additional acreage. The overall quantity of water authorized for irrigation of the overlapping areas is limited to the amount needed to make that beneficial use that the rights have in common. Therefore, they cannot be split and used separately as such use would certainly cause an enlargement.

Based on the review above, I recommend approving the lease for the full acreage authorized under the four Big Wood River rights. However, I recommend restricting the rentable amounts to reflect only the acreage that will truly be idled. The final rentable amount will be for 9.1 acres.

13 Narrative: The applicant wishes to place the entirety of all rights in the Bank. These rights are limited to the irrigation of 20.8 acres when combined. The POU for these rights is the Blaine County Middle School and have never been used in combination with municipal rights from the City of Hailey. Rights were decreed in 2011. Forfeiture is not an issue. POU will continue to receive water from the City of Hailey. The superintendent signed the applications. Water is delivered through the Hiawatha Canal and requires a 20% hold back for conveyance losses. these rights are currently within WD 37. Watermaster did not reply to request for comments. Region replied with no concerns.

Re: *Blaine County School District: Water Rights 37-183A, 37-298C, 37-334E,
37-577BX and 37-21114*

Dear Sir or Madam:

The purpose of this letter is to respond generally to water rights being leased to the Water Bank, which are conveyed in the Hiawatha Canal ("Canal") by the Hiawatha Canal Company, a.k.a. The Hiawatha Canal Water Users Association of Lateral or Laterals ("Canal Company"). For the reasons outlined below and on the conditions requested, the Canal has no objection to the aforementioned water rights being placed into the Water Bank.

The Hiawatha Canal Company is concerned about the amount of water being removed from the Canal and placed in the Water Bank by various water right holders. Generally, at this time, the Canal Company does not object to water rights conveyed in the Hiawatha Canal being placed in the Water Bank provided that if the water rights are leased to parties outside of the Canal, then the Water Bank should require twenty-percent (20%) of the right be left in the Canal as conveyance loss. I suggest that the Department place a condition on the leases to this effect.

Providing you some historical perspective, the Canal Company filed for mitigation (conveyance loss) rights in the adjudication for rights that had been forfeited or abandoned out of the Canal. The Department agreed that the conveyance loss in the Canal was twenty-percent (20%), and therefore, entered recommendations accordingly. See e.g., water rights 37-22630, 37-22631, 37-22632 and 37-22633. This conveyance has been recognized by the Idaho Department of Water Resources in similar transfers. Leaving twenty-percent (20%) of the leased rights in the Canal will insure that all rights in the Canal continue to be delivered without injury to water right holders in the Canal.

As a condition of being leased, the Canal Company requests:

1. The Canal Company does not presently object to the aforementioned water rights being placed in the Water Bank, provided that twenty-percent (20%) of the right is left in the Canal as conveyance loss; and
2. The Canal Company would like to be notified if the water rights are eventually released from the Water Bank, or if the Water Rights are being leased again to the Water Bank after the expiration of the lease period.

Thank you in advance for responding to this letter and addressing our concerns. If you have any questions, please do not hesitate to call me.

Sincerely,

HIAWATHA CANAL COMPANY
