RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on February 22, 2021.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)
43-13645	10/1/1964	GROUND WATER, tributary to	0.57	207	69
43-13649	9/17/1973	GROUND WATER, tributary to	0.74	276	69
Combined Limit Totals			1.31	276	69
Combined Lease Totals			1.31	276	69

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2021 to December 31, 2021. This Lease shall bind the parties and take effect when both parties have signed it.
4. **WATER SUPPLY BANK CONDITIONS OF ACCEPTANCE:** The Lessor shall abide by all terms and conditions contained in the Water Supply Bank Conditions of Acceptance, attached hereto as "Attachment A" and incorporated herein by this reference.

WATER SUPPLY BANK LEASE CONTRACT No. 1422

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.
7. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

ADDITIONAL CONDITIONS OF ACCEPTANCE

- The water rights referenced above will be rented from the bank at the current rental rate.
- There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
- While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
- A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
- While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
- Rental of water under this right is subject to the limitations and conditions of approval of the water right.
- Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.

WATER SUPPLY BANK LEASE CONTRACT No. 1422

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
13. Use of water under the leased rights may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, the leased water rights are within State Water District No. 143.
14. The period of use for the irrigation authorized under water right 43-13645 may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/01 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 6/28/2002.
15. The period of use for the irrigation authorized under water right 43-13649 may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 6/28/2002.
16. The unleased extent of water rights 43-13645, 43-13647, and 43-13649 when combined shall not exceed a total diversion rate of 8.7 cfs, a total annual maximum diversion volume of 1,868 af at the field headgate, and the irrigation of 467 acres.
17. The unleased extent of water rights 43-7040, 43-7062, 43-13056, 43-13645, 43-13647 and 43-13649 when combined shall not exceed a total diversion rate of 18.33 cfs, a total annual maximum diversion volume of 5,984 af at the field headgate, and the irrigation of 1,496 acres.
18. Water rights 43-13645 and 43-13649 when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☒
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).
If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to [Section 42-108, Idaho Code](#) and [IDAPA WSB Rule 37.02.03.25.02e](#).
- B. Please provide a description of the current water diversion and delivery system.
Existing wells, mainlines and delivery system.

- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. 43-7040, 43-7062, 43-13056, 43-13645, 43-13649 and 43-1347.

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☒ No ☐
Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.
- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒
If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased. _____

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. A full volume of water right has been diverted to these pivot to grow a productive crop for the last 5 years.

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒
If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See [Section 42-223, Idaho Code](#) for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed. _____

- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan?
If yes, describe. Yes ☐ No ☒

5. SALE/LEASE AGREEMENT

- A. Is the water right, or portion thereof, offered to the Idaho Water Resource Board (IWRB) for sale ☐ or lease ☒?
If lease, specify the years when the use of water will be suspended: 2021 to 2021 (maximum lease period 5 calendar years).
(Year) (Year)
- B. Show the minimum payment acceptable to the seller/lessor. The minimum payment may be shown as the "current rental rate" as established by the IWRB. Include the method of determining the minimum payment if other than the current rental rate.
The current water right owner and the proposed renter have entered into an annual payment agreement. The
10% processing fee will be paid to IDWR. No payment will be made to the water right owner through IDWR.

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this water right for sale or lease to the Idaho Water Resource Board.

The Designated Applicant acknowledges the following:

1. Payment to the Designated Applicant is contingent upon the sale or rental of the water right from the Bank.
2. While a water right is in the Bank, the seller/lessor of the water right may not use the water right, even if the water right is not rented from the Bank.
3. A water right accepted into the Bank stays in the Bank until the Designated Applicant receives written confirmation from the Board or Water Supply Bank that the water right has been released from the Bank.
4. While a water right is in the Bank, forfeiture is stayed.
5. Acceptance of a water right into the Bank does not, in itself, confirm the validity of the water right or any element of the water right.

Total Acres: 2744

Conditions of Approval:

1. X27 This right is limited to the irrigation of 523.2 acres within the place of use described above in a single irrigation season.
2. X35 Rights 43-13645, 43-13647, and 43-13649 when combined shall not exceed a total diversion rate of 10.24 cfs, a total annual maximum diversion volume of 2144 af at the field headgate, and the irrigation of 536 acres.

3. X35 Rights 43-7040, 43-7062, 43-13056, 43-13645, 43-13647 and 43-13649 when combined shall not exceed a total diversion rate of 19.87 cfs, a total annual maximum diversion volume of 6,260.0 af at the field headgate, and the irrigation of 1,565.0 acres.
4. 206 Rights 43-7040, 43-7062, 43-13056, 43-13645, 43-13647 and 43-13649 are limited to the irrigation of a specific 1,565.0 acres within the 2,744.0 acre place of use authorized by these rights in a single irrigation season. The specific 1,565.0 acres to be irrigated by the right holder shall be identified prior to use by submittal of a land list and a representative electronic shape file or by submittal of a land list and a map sufficiently detailed to allow creation of an electronic shape file to be associated with these rights in the geographic information system component of the water rights database maintained by the department. Before changing the 1,565.0 acres to be irrigated within the 2,744.0 acre place of use, the right holder shall submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.
5. X61 The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 6/28/2002.
6. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
7. R64 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
8. R05 Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No.143.
9. R43 The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
10. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
11. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
12. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

**RE: WATER SUPPLY BANK LEASE CONTRACT 1422
FOR WATER RIGHTS 43-13645 & 43-13649**

Dear Lessor:

Water right **43-13645 & 43-13649** was leased into the Water Supply Bank (Bank) as of January 1, 2021, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2021**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Amanda Johnson-Veibell

RE: APPLICATION TO LEASE WATER RIGHTS 43-13645 & 43-13649 TO THE WATER SUPPLY BANK CONTRACT 1422

****TIME SENSITIVE RESPONSE REQUIRED****

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2021**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Memorandum

To: Water Supply Bank Application 1991
From: Remington Buyer
Date: July 7, 2021
Re: Lease to the Bank of water rights 43-13645 and 43-13649

Purpose/Narrative: An application was received by the Department February 22, 2021 from Eagle Creek Northwest LLC and Jones & Widerburg Farms, proposing to lease into the Bank water rights 43-2489, 43-13645 and 43-13649, for 2021, so that the leased rights might be rented as the basis for rental applications 1993 and 1994. This memo addresses the lease of water rights 43-13645 & 13649.

An initial review of water rights 43-13645 & 13649 (lease application 1991) revealed the rights were combined limited with water rights 43-7040, 4062, 13056 & 13647. Out of enlargement concerns, an information request was issued to Jones & Widerburg Farms on April 1, 2021, requesting that the applicant either: 1) lease the additional four combined limited water rights to the Bank through lease application 1991, or; 2) commit to a reduced, combined limited use of the remaining, unleased water rights. The application was set to deficient and placed on hold after the information request was issued.

As of today, no information has been received from the applicant. However, a subsequent review of the lease proposal conducted this week indicates that a lease may be possible, despite not receiving the requested information. Specifically, although there are combined limits associated with the lease of both water rights 43-13645 & 13659, as well as 43-2489, it appears that a lease of both water rights is possible, provided combined limit totals are accurately described on and adhered to under the lease contract.

Authority to File: A filing with the Idaho Secretary of State confirms Kendall D. Jones, Michael L. Jones and Marvin A. Widerburg are all authorized to transact business on behalf of Jones & Widerburg Farms. Lease application 1991 has been signed by Kendall D. Jones. No concerns about Mr. Jones' authority to file the lease application on behalf of Jones & Widerburg Farms.

The land proposed to be idled and left unirrigated under water rights 43-13645 & 13649 is owned by Jones & Widerburg Farms. No concerns about the authority to file lease application 1991.

Water Right Validity/Forfeiture Evaluation: Water rights 43-13645 & 13649 appear to be valid.

A review of 2020 sentinel satellite imagery for the place of use associated with water rights 43-13645 & 13649 indicates approximately 1,636 acres were vegetated, presumably through active irrigation practices, under the six water rights belonging to Jones & Widerburg Farms. Jones & Widerburg Farms' six water rights are combined limited to the irrigation of 1,565 acres, so it appears an excess of 71 acres may have been irrigated in 2020. No concerns about water right validity.

Injury Evaluation: No injury is apparent through this lease. Proper review should avoid enlargement through a rental.

Enlargement of Use: Jones & Widerburg Farms' water rights are limited to an overall annual diversion volume of 6,260 af. WIMIS Data from 2020 confirms approximately 2,603.8 af were diverted under the water rights. No concerns about diversion volume enlargements.

OK, trying this again...

Greg Sullivan today provided me with documents affirming that 196 acres of water right 43-2489 is to be leased into the Bank in 2021, to facilitate rental applications 1993 and 1994. So, lease application 1991 (for water rights 43-13645 and 13649) is no longer required, however we will still lease the rights into the Bank this year, even though they won't be rented on applications 1993 or 1994.

Attached to this email are lease review memos, maps and approval documents for water rights 43-2489 (contract 1421), and for water rights 43-13645 & 13649 (contract 1422). Also attached are review memos, maps and approval documents for a rental of water right 43-2489 through rental applications 1992 & 1994 (rental agreements 558 and 559).

Nathan, Corey, please advise if you have any questions, comments or concerns about these WSB transactions for 2021.

Thank you,

Remington

It figures.

Right after I sent this email, it comes to my attention that water rights 43-13645 and 13649 are located outside the RR CGWA and are therefore ineligible for rental to both agreements. In speaking with Greg Sullivan at Brockway, it sounds like the parties will increase the amount being leased under 43-2489, to so that it can be rented instead of 43-13645 and 13649. Once we amend the lease, we can amend the rentals, and I'll reach out to you for comments again.

Sorry for the confusion.

Corey, Nathan,

I hope you're staying cool in this heatwave we're having.

Attached to this email are a lot of files associated with 2021 Water Supply Bank lease/rental transaction in the Raft River area.

Effectively, two ground water users have proposed to lease into the Bank portions of some of their water rights, so that the leased extent of the water rights might be rented by ADT Farms and ADTD Farms. The applications are as follows:

WSB	Application	Water Rights Involved	Water User
Application	Type		
1990	Lease	43-2489	Eagle Creek Northwest LLC
1991	Lease	43-13645 & 43-13649	Jones & Widerburg Farms
1993	Rental	43-2489, 43-13645 & 43-13649	ADTD Farms LLC
1994	Rental	43-13645 & 43-13649	ADT Farms LLC

Because these lease and rental applications were submitted at the same time, I processed them concurrently and even did a joint review of the lease applications. Hopefully my review memos seem logical to you and you can follow along.

If you would provide any questions, comments or concerns that you foresee with these lease/rentals, that'd be greatly appreciated.

Thank you, and may you have an enjoyable 4th of July!

RE: Action Required on WSB Lease Application 1991

Dear Applicant,

The Department of Water Resources (Department) has conducted a preliminary review of your applications to lease water rights 43-13645 & 43-13649 to the Water Supply Bank and determined that your applications are incomplete. The following items are required to continue processing these applications:

- the water rights are stacked with rights 43-7040, 43-4062, 43-13056 & 43-13647, portions of these rights will need to be offered for lease to the Bank to avoid enlargement
- the water rights share a combined rate and acre limit, the amounts offered for lease to the Bank does not provide a rentable amount for ADT and ADTD Farms.
 - o Additional rate, volume, and acreage are necessary if you would like to proceed with the lease-rental package else, we can lease these amounts into the Bank and return/adjust the rental applications

As part of the evaluation for water right being accepted in to the Bank, enlargement cannot occur. As these two water rights are stacked with rights 43-7040, 43-4062, 43-13056 & 43-13647, a portion of each right must be leased to the Bank such that enlargement can be prevented. Further, because these rights feature a combined rate and acre limit, more acreage must be leased to the Bank if you would like to facilitate a rental for both ADT and ADTD Farms.

A second option, should you wish to facilitate a rental for ADT and ADTD Farms, the Bank can pull the offered rate, volume, and acreage from the combined limit of the water rights. This would also require, from you, confirmation that you agree to stay below what the remaining unleased portions of your water rights authorizes. If that is agreeable, please provide conformation that you would like to do so and that you are willing to irrigate the remaining authorized acreage under your water rights.

To continue processing your applications please provide us with the above requested information within 30 days (deadline of May 1, 2021). If we do not hear from you prior to the established deadline, your applications will be returned and your filing fee refunded.

If you have any questions, please contact me at (208) 287-4936.

Re: Jones and Widerburg Farms

Dear Mr. Buyer:

Jones and Widerburg Farms desires to lease 69.0 acres from water rights 43-13645 and 43-13649 into the Idaho Water Supply Bank for the 2021 irrigation season. Water rights 43-13645 and 43-13649 are two of 6 water rights that are utilized to irrigate 1,565.0 acres of farm ground.

Irrigation at the 69.0 acres to be dried up for 2021 has occurred over the past several years and can be document by aerial photography. No irrigation will occur under the 69.0 acres during the 2021 irrigation season.

An agreement has been signed between Jones and Widerburg Farms, ADT Farms LLC and ADTD Farm LLC regarding a rental payment. Only the 10% processing fee will be paid to the Idaho Water Supply Bank. No rental payment will be paid to Jones and Widerburg Farms by the Idaho Water Supply Bank at the end of 2021.

Please copy our office on all correspondence regarding this application.

Sincerely,

Greg Sullivan, M.S., Engineer
