7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Commercial use is for an office.
13. Industrial use is for production of liquid fertilizer.

Subject: RE: WSB Lease for 27-12180

Hi Jean,

Looks like we don't have any current water use information for this water right. Not sure why no site visits were made since 1998. Looking at aerial photography it appears that the fertilizer facility may have been in operation in 2015 and 2016. 2017 aerial photography shows the fertilizer facility removed. Office building still exists. Just looking at aerials I would guess that there was water used at the fertilizer facility in 2015-2016.

I am reviewing an application to place water right 27-12181 in the Water Supply Bank. I am not seeing any current WMIS records for this water right. The last entry was made in 1998. Am I missing something? Would you please look at this and let me know? If this right hasn't been used since it was decreed, I don't think I can accept it into the Bank.

Narrative: The Department received this application on May 11, 2021 along with an ownership change to GO, LLC. This is an industrial and commercial use right. This right was decreed in 2011. The facilities were there until approximately 2017 when all the buildings were dismantled. Although there are no WMIS records, we will assume the water was being used until the buildings were torn down. Well was decommissioned in September, 2016. The last year for any WMIS records was 1998. WM 120 Blake Jordan is not sure why there isn't any more current data. The owner of the property does not own the water rights, which were withheld in the sale of the land. This right overlaps with several rights from the City of Blackfoot, ground water for municipal, Blackfoot Irrigation, surface water and Corbett Slough Ditch Co., surface water.

Re: *Application to Lease WR 27-12180 into the Water Supply Bank.*

Dear Reviewing Agent:

Enclosed for processing is an *Application to Lease* WR 27-12180 to the Water Supply Bank. This is an industrial water right that is associated with property that was purchased in late 2015 by Crop Production Services, Inc. However, WR 27-12180 was specifically reserved in the transaction as evidenced by the documents submitted by Crop Production Services, Inc. along with their Notice of Security Interest in a Water Right that is found in the water right backfile for this water right. Since the property was acquired, the facility on the property has been dismantled and removed, which was done in late 2017. At that point water was no longer needed to operate the facility. As of the date of the submission of this application, we are within the five-year window where forfeiture is not a concern. Accordingly, we request that you accept this water right into the Water Supply Bank.

You will note that the application is being submitted by an entity named GO LLC. WR 27-12180 is currently in the name of Gemco Limited Partnership, but we are also including a *Notice of Change in Water Right Ownership* for this water right as the assets of Gemco, upon dissolution, were conveyed to GO LLC. We have included the appropriate filing fee for the *Notice of Change in Water Right Ownership* in the amount of \$25.00 as well as the \$250.00 fee for submitting this water right into the water supply bank. If you have any questions or concerns, please do not hesitate to give me a call.

Best regards,

Robert L. Harris
