NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

Corey, Rusty,

Michelle Wolf has applied to renew her prior lease and rental of her water right 37-7505A for an additional five years, commencing this year. She is relocating 31.5 acres of ground water right, moving it approximately nine miles east toward Mormon Reservoir. I don't have any concerns about the lease, however, I am curious about her diversion and use of ground water under the rental. From 2016-2020, she was authorized to irrigate 31.5 acres under a center pivot that is primarily sourced with surface water under 37-13120.

The intent of the rental was to irrigate land with ground water when surface water supplies dwindled. It appears as many as 143 acres might have been irrigated under a center-pivot last year, of which, 31.5 acres were authorized to be irrigated with ground water under her prior rental agreement. However, she is not authorized to irrigate all 143 acres with ground water. I have reached out to her for confirmation as to the maximum extent of irrigation that may have occurred last year under the pivot, and specifically, how much irrigation was conducted with surface water (see attached email to Michelle Wolf sent earlier today).

Could you please review my lease and rental review records (attached memos, maps and approvals) and let me know if you have any questions, comments or concerns about this transaction? I can and will update my records if/once I hear back from Ms. Wolf.

Thank you,

Remington
