Watermaster:

Hi Ron,

I seem to have left this application for transfer off the email that I had sent to you for comment. Please send any comments that you may have when you can. We have received a protest from adjacent property owners. Sorry for my error of not sending this to you earlier.

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right applications. You can find a copy of the application at: <https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the applications, then complete the enclosed recommendation form and return it to this office by **09/07/2021**.

If the applications are approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation by **09/07/2021**, IDWR will presume that you do not oppose approval of the applications and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.

Thanks!
Denise

Re: Transfer Application – Fee & Clarification/Correction Request

Dear Applicant,

The Department of Water Resources (Department) received your transfer application on March 15, 2021. The Department requires the following corrections and clarifications before we can begin processing your transfer application:

- ☐ **FEE**
 - With this application, you submitted \$150.00 for ownership change and transfer.
 - The ownership change required no split, so the fee was \$25.00.
 - The fee for a transfer of this size (2.01-3.00 cfs) is \$660.00.
 - Your ownership change and transfer application together required a total fee of \$685.00.
 - You have already paid \$150.00 so you will need to submit an additional \$535.00.
- ☐ **Item 4. – TOTAL AMOUNT OF WATER (clarification/correction needed)**
 - Your transfer application proposes 2.74 cfs of water, however right 65-2502 allocates 2.9 cfs.
 - If you wish to utilize your entire water right out of your proposed point of diversion, please correct item 4 on your application to 2.9 cfs.
- ☐ **Item 5. – POINT OF DIVERSION (clarification/correction needed)**
 - Item 5 of your application shows you wish to transfer the point of diversion downstream to a new location.
 - If this is the case, you do not need to correct item 5 of your transfer.
 - If you are proposing an additional point of diversion and do not wish to abandon your old point of diversion, please add a line describing the old point of diversion you wish to maintain.

With this letter, I attached your original transfer application with the necessary corrections marked, and a transfer fee schedule for your reference. Please make the necessary clarifications/corrections, enclose the required fee, and send back to me at the address listed below.

Please do not hesitate to contact me with any questions you may have.
