Re: Review & Evaluation of Sufficiency of Information

The purpose of this application is to replace a junior Portneuf River right with a senior right from Rapid Creek. This will be accomplished by moving a portion of right 29-13864 to the property through an exchange. Transfer 84942 will move the junior rights, 29-14162 and 29-14163, off the proposed place of use to avoid stacking.

The exchange will split 0.07 cfs from Rapid Creek water right 29-13864 and inject it into the Portneuf River. This amount will then be diverted directly from the Portneuf River approximately 5 miles upstream from the point of injection.

Authority to File:

The applicants are Acres Unlimited LLC., Greg Smedley, and Jamie Smedley. Greg Smedley is the property owner of the proposed place of use and the agent for Acres Unlimited LLC., the owner of right 29-13864. The applicants have authority to file the transfer.

Water Right Validity:

Parent right 29-293A was decreed in 2004 then split into right 29-13864 in 2005. The right was then leased into the Water Supply Bank starting in 2007 and released in 2020. Forfeiture is not an issue.

Injury to Other Water Rights:

Other water rights will not be impacted by the proposed changes. The exchange was advertised and no protests were received. The proposed changes have been reviewed by the watermaster of WD 29D, in which she does not oppose the approval of this application. In 2020, IDWR staff investigated the confluence of Rapid Creek and the Portneuf River in late summer and confirmed that Rapid Creek remains connected to Portneuf River throughout the irrigation season.

Enlargement of Use:

The proposed changes will not result in enlargement because water use will not increase as a result of the transfer.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
