

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 505

RECEIVED

MAY 24 2021

DEPARTMENT OF
WATER RESOURCES

This is to certify that:

LANCE AND/OR LISA FUNK PARTNERSHIP
PO BOX 310
AMERICAN FLS, ID 83211-0310

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
35-7489	3/14/1975	GROUND WATER	0.73	147	36.7	0.02	4.0
43-13597	5/23/1962	GROUND WATER	0.03	18.5	4.6	0.006	4.0
43-13595	5/4/1978	GROUND WATER	0.16	38.7	9.7	0.016	3.9
Combined Limit Totals			0.16	57.2	14.3	0.011	4.0
Combined Rental Totals			0.89	204	51.0	0.017	4.0

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2025. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2021, whichever occurs last.

Annual Rental Fee:

2021 - 2022: \$4,080.00 annually
2023 - 2025: \$4,692.00 annually

SUPPORT DATA
IN FILE # 35-7489

The full fee for the rental of the above-described right(s) is \$4,080.00 per year for years 2021 - 2022 and \$4,692.00 per year for years 2023 - 2025. The rental fee includes an administrative fee of \$408.00 per year for years 2021 - 2022 and \$469.20 per year for years 2023 - 2025.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Detailed water right conditions are attached.

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. Rental does not authorize the construction of a well.
10. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 505

11. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
12. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
13. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
14. Prior to December 31 of each year, the Board may review this rental agreement to determine whether it is consistent with the management plan that may be approved for the Eastern Snake Plain Aquifer Ground Water Management Area ("ESPA GWMA Plan") pursuant to Idaho Code § 42-233b. The Board may cancel this rental agreement if the Board determines it is not consistent with the ESPA GWMA plan. If this rental agreement is canceled, the cancellation shall not take effect until December 31 of the year in which the rental agreement is canceled.
15. The period of use for the irrigation described in this approval under water right 35-7489 may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 3/30/1993.

APPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANKRECEIVED
FEB 03 2021
DEPARTMENT OF
WATER RESOURCESApplicant Name: Lance and/or Lisa Funk

Is this application being submitted with a lease application as a lease/rental package?

Yes ☒ No ☐

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

MINIMUM REQUIREMENT CHECKLIST

Check All Items as Either Attached (Yes) or Not Applicable (N/A)

Yes

- ☒ Completed *Application to Rent Water from the Board's Water Supply Bank*
- ☒ Confirmation that this form has been printed single sided, per requirement of the Water Supply Bank

Attachment N/A Yes

- 2 ☒ A map showing the proposed point(s) of diversion, place(s) of use, and water diversion and distribution systems proposed to be used with your rental request
- 3A ☐ ☒ Detailed information on a proposed use of rental water
- 3F ☒ ☐ Authorization from the owner/operator of the rental point(s) of diversion
- 3H ☒ ☐ Water modeling to account for the impacts of the rental request
- 3J ☒ ☐ Documents justifying a rate of flow greater than 0.02 cfs/acre
- 3K ☒ ☐ Authorization from the owner/operator of the property at the proposed rental place(s) of use
- 4B ☐ ☒ Explanation of how the rental water will sufficiently accomplish your rental purposes
- 4C ☒ ☐ Explanation of consumptive use amounts for water rights experiencing a change in nature of use

Application to Rent Water (Continued)

1. CONTACT INFORMATION

- A. Applicant Lance and/or Lisa Funk
- Mailing Address PO Box 310 American Falls, Idaho 83211
- Street City State Zip Code
- Email Address _____ Phone Number 208-226-5551
- B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☒ No ☐
- If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.
- Representative Greg Sullivan Professional Title Engineer
- Organization Brockway Engineering Relationship to Applicant Consultant
- Mailing Address 2016 North Washington Street, Suite 4 Twin Falls, Idaho 83301
- Email Address greg.sullivan@brockwayeng.com Phone Number 208-736-8543

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

- A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:
- Existing well, mainline and delivery system.

- B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.92 CFS	204.0 AF	0.92 CFS	204.0 AF	51.0 AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

- C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
4/1/2021	7/1/2021	☐ 1	☐ 2	☐ 3	☐ 4	☒ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):
Existing well, mainline and delivery system.

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
06S 29E Sec 20 SWNW	Ground Water	35-13813 et al

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒
If yes, include documented consent as Attachment 3F.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☒ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☒ N/A ☐
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☒ Irrigation 51.0 (number of acres) Duration: Subject to IDWR standard seasons of use
☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, justify the rate of flow and attach any supporting documents as Attachment 3J. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it Attachment 3K.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:
None.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
43-13595	Irrigation	5	1209.6	302.4		0.16	38.7	9.7
43-13597	Irrigation	0.89	580.4	145.1		0.03	18.5	4.6
35-7489	Irrigation	0.73	146.8	36.7		0.73	146.8	36.7
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.92	204.0	51.0
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☒
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:
Previous attempts to secure permanent water has not been successful.

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe:

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.

- D. Additional Information
None

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

**RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 35-7489, 43-13597 & 43-13595, AGREEMENT 505**

Dear Renter:

Please find enclosed a receipt in the amount of **\$408.00 & \$3,672.00** in connection with the rental of 204.0 acre-feet of water for irrigation of 51 acres during 2021. Upon receipt of this letter, you are authorized to divert water in compliance with the conditions of water use described in your rental agreement.

Pursuant to the Water Supply Bank Rules, the rental fee will be retained by the Department to offset administrative costs since you are the owner of the rights.

If you have any questions, please contact this office at (208) 287-4800.

Sincerely,

Jean Hersley

RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 35-7489, 43-13595 & 43-13597 AGREEMENT 505

TIME SENSITIVE RESPONSE REQUIRED

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$4,080.00 was calculated based on the current rental rate of \$20.00 per acre-foot times a diversion volume of 204 acre-feet.

Please send a check for \$4,080.00 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

Pursuant to the Water Supply Bank Rules, 90% or \$3,672.00 of the rental fee will be paid to the lessor(s) and 10% or \$408.00 will be retained by the Department to offset administrative costs.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Amanda Johnson-Veibell

Memorandum

To: Water Supply Bank Rental Application 1967
From: Remington Buyer
Date: March 22, 2021
Re: Water Supply Bank Rental Applications for Lance Funk for 2021

Purpose/Narrative: On February 3, 2021, the Department received through Greg Sullivan of Brockway Engineering three rental applications for Lance Funk, which request authorizations to irrigation approximately 247 acres in Power County. In past years, Mr. Funk has been irrigating these grounds under prior Water Supply Bank rental approvals, as the lands not fully feature appurtenant irrigation water rights. These new applications (1965, 1966 and 1967) represent continuations of prior, recently expired irrigation rentals authorizations.

The lands to be irrigated are part of a common irrigation system, and they are provided with water from a singular well. Optimally, this rental request should be proposed, reviewed and processed as a single rental application. However, because the Eastern Snake River Plain Aquifer (ESPA) water rights requested to be rented have varying lease contract durations, the rental request has been submitted as three different applications. This memo addresses rental 1967, which covers approximately 50 acres of the 247 acres in question.

Per information provided by the applicant, the center-pivot irrigation system used by Mr. Funk to irrigate these lands can operate at a rate of 5.3 gallons per minute, per acre (5 gpm/ac), which is equivalent to 0.011 cfs/ac. This is an unconventionally low per-acre diversion rate. However, the applicant has provided irrigation system information that indicates this per-acre diversion rate is acceptable, and the 0.011 cfs/acre diversion rate will be considered as the basis for the water rights to be rented on this application.

Authority to File: The applicant owns the land where water will be diverted and used. No concerns about authority to file.

Water Right Validity/Forfeiture Evaluation: Water rights 43-13597 and 13595 (contract 1293) and 35-7849 (contract 1361) are being requested. No concerns about the validity of the water rights requested for rental.

Injury Evaluation: Eastern Snake River Plain Aquifer (ESPA) modeling was evaluated and no mitigation is required to rent water rights from contracts 1293 and 1361 for five years.

Enlargement of Use: Water rights 35-13340 and 13362 are irrigation water rights and no enlargement is apparent under this rental.

Local Public Interest: Staff are unaware of any local public interests that are averse to the rental.

Beneficial Use/Conservation of Water Resources: The rental appears consistent with the conservation of water resources in Idaho.

Department/Watermaster Comments: Water district 120 and IDWR Eastern Region comments were requested on March 22, 2021.

Water Supply Bank Evaluation: Bank staff recommend the approval of this application.

Lance Funk has submitted three rental applications (1965, 1966 and 1967), to irrigate portions of three pivots near American Falls Reservoir. Due to problems with ESPA ground water modeling, two of the three rental applications are not yet processable. However, we can finalize rental application 1967. Attached to this email are my review memo, map and draft approval for application 1967.

Please advise if you have any questions, comments or concerns about this rental application.

Thank you,

Remington

Hi Greg,

No, we don't need any further documentation. I'll use the information you've thus far provided to process the rental application we've received from you electronically and I'll follow up with you once processing is complete, or if anything else pops up during our review.

Thanks,

Remington

Subject: RE: Water Supply Bank lease of water rights 35-14040 and 35-14308

Remington,

I talked with Lance regarding the diversion rate required for these pivots. I believe all three pivots in this area are almost exactly the same design and have the same sprinkler pages. Lance sent me the sprinkler package design characteristics from Pierce Corporation for Pivot 2 and Pivot 3 which indicate that the full circle gpm/acre is 5.3 gpm or 0.011 cfs/acre. I think we can get by with a reduced cfs/acre requested

rate. Let me know if you would like me to send you an updated page 2 that reflects a lower requested diversion rate.

I have attached an ESPA Model run for water rights 43-13595, 43-13597, 35-14308, 29-11278 and 29-14000 for 189.0 acres for the 2021 irrigation season.

Greg,

Yes, at this point, the water rights on contract 1317 are not available to be rented. The application is still under review and it is not certain that the water rights will be leased.

The reduction of water right 35-14308 from 63.3 acres down to 53.7 acres was calculated as the require conversion to boost up the per-acre diversion rate from 0.016 cfs/ac to 0.019 cfs/ac, sa was requested on Mr. Funk's application.

Subject: RE: Water Supply Bank lease of water rights 35-14040 and 35-14308

Remington,

Does this mean that the water rights under lease contract 1317 are not available to rent?

Why does the rental possible list only show 53.7 acres from 35-14308? This particular water right was submitted to the Water Bank as a lease/rental package for Funk.

 Subject: RE: Water Supply Bank lease of water rights 35-14040 and 35-14308

Hi Greg,

Thanks for your patience. I cross checked against what ESPA water rights were available for rental in the vicinity of Lance Funk's rental place of use and I think we have enough to accommodate his rental request for this year. The tables below list the water rights available for immediate rental to Lance Funk (top table) as well as the rental possible to him, once we calibrate these water rights to match the per-acre diversion rate and diversion volumes requested by Mr. Funk (0.019 cfs/ac and 4.0 afa/ac).

Hi Greg,

Thanks for providing this modeling information. I had a chance to review contract 1317 water rights today and I've identified some issues with that contract which will likely delay our finalization of that contract.

We might have some alternative water rights that are already leased to the Bank which can be rented by Mr. Funk. I'll take a closer look at the availability report tomorrow and see if I can't find an option that would work for Mr. Funk, and then I'll follow up with you.

Thanks,

Remington

Subject: RE: Water Supply Bank lease of water rights 35-14040 and 35-14308

Remington,

See the attached Funk ESPA Model analysis.

I think renting the 121.9 acres from 29-13143, 29-13144 and 29-2292 (Lease Contract 1317) and 67.1 acres from 43-13595 and 43-13597 (Lease Contract 1293) will work for renting 189.0 acres for 2021.

Please proceed in renting acres from those water right for 2021.

Do I need to update the rental application?

Thanks for inquiring about those water rights Greg. Those rights were cancelled and are not available for rental this year. They should have been removed from the report I emailed you.

Remington,

The spreadsheet you sent me includes water right 35-13944, 35-13946 and 35-13948. The lease begin date is 1/1/20 and the lease end date is 12/31/20. Are these water rights available to be rented in 2021?

Remington,

I have removed Amanda for KBC Farms from this email strain.

I will work to update the rental for Lance Funk to replace the proposed water under 29-8126 and return it to you as fast as possible.

Hi Greg,

We have not yet received back from KBC farms the signed approval pages for contracts 1309 and 1312. I don't know why KBC farms sent them to you. Please forward the documents to our office, or forward them back to KBC Farms, so that they might return them to our office.

If a transfer will be filed this year for water right 35-14040, and a lease of this water right is not desired for 2021, then when contract 1312 is returned to our office, KBC Farms can request the cancellation of contract 1309, to accommodate the transfer.

Regarding Lance Funk's request to rent water right 35-14308, in conjunction with water right 29-8126, that you emailed last week, please know it cannot be processed as proposed. Water right 29 -8126 is considered to be a non-consumptive use industrial water right which can only be rented for non-consumptive uses.

For your consideration, attached to this email is a list of ESPA water rights presently under lease, or proposed for lease to the Bank. Please know, this list is changing daily and I would strongly encourage you to inquire with our office to make certain that the water rights you might choose from this list are still available, prior to submitting your rental applications.

Remington,

I am really confused right now. I just received in the mail two original signed copies of Contract 1309 for 47.5 acres of 35-14040 and tow original signed copies of Contract 1312 for 63.3 acres of 35-14308 from KBC Farms. If I have the original lease contracts sitting on my desk, what documents do you have for water rights 35-14308 and 35-14040?

Remington,

See the attached rental applications and lease application. The attached documents will go out in tomorrow's mail.

I have been waiting for the original KBC Farm lease application to come in the mail so that I could submit it with the rental applications. Sorry for the mix up. Did they submit a \$250 check with it?

The lease application for 35-7489 will have a \$250 check attached to it tomorrow.

Please do not process the lease application or renewal for 35-14040. The lease application or renewal should not have been signed or submitted to you. The entire water right 35-14040 is being transferred to a new POD and POU location and hopefully will be irrigated this summer. I am waiting for the original signature pages to return to me so I can submit the transfer to the Eastern IDWR office.

Thank you for reaching out to me of the lease applications.

Let me know if you have any questions.

OK, in that case, we will look forward to receiving the rental applications on behalf of your clients. Please send them in ASAP. You can email the rental applications to Bank@idwr.idaho.gov to expedite the process.

Remington,

Yes I am trying to rent them for another client. They were supposed to mail the lease applications to me. I have been checking the mail everyday looking for them and waiting to submit the rentals together.

Hi Greg,

Are you working on a rental application of water rights 35-14040 and 35-14308 for Lance Funk, or someone else?

The Water Supply Bank is contemplating renting these water rights to a third party.

We haven't yet finalized the lease of the Koompin Farms water rights, so there is still time for you to submit a rental application for your clients. If you would like to submit an application to rent these water rights for your client, we can temporarily hold them for your client.

However, I would ask that you submit your rental application immediately. Once we execute lease contracts for these water rights, we will proceed to make these water rights available for rental on a first-come, first-served basis.

Regards,

Remington

Remington,

I just talked to Greg Sullivan at Brockway Engineering in Twin Falls about this, I believe he is going to fill out the info to lease them to Lance Funk Farms like he has done in the past. We just sent Greg everything the other day so you guys should be seeing all the needed paperwork anytime.

Thanks!
Amanda

Hello Klaren,

The Water Supply Bank recently approved applications to lease into the Bank water rights 35-14040 and 35-14308 and contracts have been sent out by mail for signature.

On page one of the lease applications, a check box was checked, indicating that the leases were being submitted to the Bank as part of a lease/rental package. However, I can't find any information in the lease application to indicate who the intended renter of these water rights should be.

Is there an intended renter of these water rights? Or, does Koopin Farms not have a preference as to whom these water rights might be rented? The Bank is contemplating a rental of these water rights for 2021, but prior to allocating them to a rental agreement, we wanted to confirm that there wasn't already an intended renter.

Thank you for your response to this inquiry,

Re: Water Rental of 29-7622, 29-8126, 35-14308, 43-13595, 43-13597 and
35-7489

Dear Mr. Buyer:

Multiple rental applications are being submitted to IDWR with this letter.

Lance Funk desires to rent 3.0 acres from water right 29-7622 for the 2021, 2022 and 2023 irrigation season. No other water right is proposed for this rental and the ESPA model analysis for this rental indicates that no mitigation is required.

Lance Funk desires to rent 189.0 acres of water rights from 35-14308 and 29-8126 for the 2021 irrigation season. The lease application for 35-14308 was supposed to be submitted with the rental application but was inadvertently submitted directly to the Idaho Water Supply Bank. Water right 29-8126 is an industrial water right. A diversion limit of 0.02 cfs/acre is anticipated along with 4.0 acre feet per acre of volume. The ESPA model analysis for this transfer indicated that no mitigation is required.

Lance Funk desires to rent 51.0 acres from 43-13595, 43-13597 and 35-7489 for the 2021, 2022, 2023, 2024 and 2025 irrigation seasons. The ESPA model analysis for this transfer indicated that no mitigation is required.

The lease application for 35-7489 is being submitted with this letter and rental application. It is proposed to lease 36.7 acres of water right 35-7489 into the Idaho Water Supply Bank for 2021, 2022, 2023, 2024 and 2025.

Sincerely,

Greg Sullivan, M.S., Engineer
