The period of use for the irrigation described in this approval may be extended to a beginning date of 4/15 and an ending date of 10/31 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water after 10/15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 12/11/2002.
2. This water right may only be diverted from the point of diversion and injected into the East Canal to replace water flowing in the East Canal when the described flow is diverted at the headgate located in the NWNWNW Sec. 22, T01S, R21E and irrigation is occurring as described in transfer approval 79179 using the small pivot. Rediversion from the East Canal for irrigation is under the control and regulation of the Little Wood Irrigation District, the managers of the East Canal, and is subject to the delivery rules of the District which may include the assessment of ditch losses.

5. Prior to the diversion and use of water under Transfer approval 79179, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.

**IDAHO DEPARTMENT OF WATER RESOURCES

8. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
9. If the surface water right(s) appurtenant to the place of use is unavailable for any reason other than drought or curtailment by priority (for example abandoned, forfeited, sold, transferred, leased, used on another place of use, or disallowed by court decree), this right to divert ground water shall not be used for irrigation purposes without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
10. The following rights are diverted through point(s) of diversion described above: 37-7621D, 37-7621E, 37-7621F & 37-7621G.

TRANSFER SYNOPSIS

Date: July 21, 2021
To: Transfer #85111, Creg and Leta Hansen Transfer file
From: Jim Bitzenburg
Re: Summary of transfer

Application for transfer proposes to change the place of use (POU) for ground water irrigation right 37-7621E (0.67 cfs) which currently irrigates 34.0 acres of ground located approximately 1.9 miles north and 0.3 mile west of the intersection of U.S. Highways 20 and 93 in Carey. The proposed POU will be located approximately 1.0 mile south and 0.5 mile east of Carey. The location of the point of diversion (well) will not change.

The transfer proposes moving supplemental ground water right 37-7621E from land in Section 22, T01S, R21E to land in Section 3, T02S, R21E. The land in Section 22 has Little Wood Irrigation District water and an April 1894 decreed right (37-22684). The land in Section 3 also has Little Wood Irrigation District water and an April 1894 decreed right (37-21249), but with a higher duty of water (0.023 cfs/acre vs. 0.02 cfs/acre). As a result, it appears no potential for enlargement exists.

The proposed transfer is in Water District 130 so Watermaster comments will be solicited, and the transfer will be advertised and subject to public scrutiny.

FEE MEMORANDUM

Date: July 21, 2021
To: Greg and Leta Hansen Transfer #85111 File
From: Jim Bitzenburg
Re: Receipting/disposition of fees paid

This transfer was filed on July 14, 2021 and it proposes to change the place of use (POU) of a single water right to a different location approximately 3.0 miles away. Because the entire POU is changing, it is appropriate to charge the fee based upon the entire flow rate of 0.67 cfs, which equates to a fee of \$500.00 from the transfer fee schedule. The fee was paid at the time of filing with check #4904, issued by C. L. Hansen Farms, Inc., IDWR receipt #S038697.
