Ok, easy peasy.

Mr. Lunsford's POD is near the end of Keithly Creek. He has a junior water right, and in most years the senior water rights above him have effectively curtailed his usage. Currently, nearly all properties with senior water rights in Keithley Creek are either owned or rented by Tom Seid...and he also rents Mr. Lunsford's property. Such being the case, it's been about 12 years since I have been called to look into anything on Keithly Creek and can see no reason to require a measuring device on a diversion that is, in essence, unused for most of the season. In future, should properties change hands and the waters of Keithly Creek be used by more than one guy, we should revisit the question of measuring device requirements.

If you need anything more, just let me know!

Have a great day,

Brandi

Hi Brandi,

There isn't a form, an email with an explanation why you believe certain conditions on the permit are not necessary is fine. I will put the email in the file and the Department will consider it as a request for waiver of conditions(s) from the permit holder.

Thanks!
Debbi

Hi Debbi,

Thanks for getting back to me. The email address I have is misspelled as Debbie...sorry! As for the waiver for Mr. Lunsford, is there a form you need me to fill out? Or would an explanation in an email suffice?

Thanks again,

Brandi

Hi Brandi,

I just got a call from Jerry Lunsford letting me know you tried to send an email and it was undeliverable. Maybe you could compare the email address you have with this one. Let me know if there is anything else I can help with.

Thanks,
Debbi

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 67-15154

Dear Permit Holders:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water. The Department will address your request to waive conditions of the permit at the time of licensing.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Western Region Office of the Department located in Boise at (208) 334-2190.

Sincerely,

Debbi Judd
