**INSTRUCTIONS FOR FILING A
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All persons owning or claiming ownership of a water right or claim are required to provide notice to the Department of Water Resources (IDWR) of any change in ownership of any part of the water right or claim or of any change in the owner's mailing address within 120 days of the change. Forms to report ownership changes and/or to update an address are available on IDWR's website at www.idwr.idaho.gov. In addition, all new owners of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

A notice is required for changes in ownership from one individual to another, from an individual to a business entity (even if the business is owned by the individual), or from one business entity to another (even if both businesses are owned by the same individual). Adding or removing a name is considered an ownership change which requires the submission of evidence to support the change and the filing fee.

Separate brochures describing the adjudication of water rights and the ownership change notice requirement are available from IDWR. Please contact your nearest IDWR office if you would like more information or need help completing this form. A list of IDWR offices is on page 2 of these instructions, or you can call 1-800-451-4129. Water right information can be found on the department's website using the Water Right and Adjudication Search link at www.idwr.idaho.gov.

Please note:

- Unlike licensed or decreed water rights, which are real property, water right permits, applications for new water rights, and applications to transfer existing water rights are considered the personal property of the permit holders/applicants. Permit holders and applicants must assign their interest in a permit and/or application to the new owner. Assignment forms are available on the department's website at www.idwr.idaho.gov, or from any IDWR office. The fee for an assignment of permit is \$25. There is no charge for an assignment of application for permit or application for transfer.
- If you want to change or add a point of diversion, place of use, season of use, or purpose of use of a water right, you must file an Application for Transfer. The ownership of a water right can also be updated through the transfer process.
- The combined portions of a divided ("split") water right cannot exceed the total flow rate, volume, or period of use of the original right.
- IDWR has no jurisdiction concerning easements, rights-of-way, and zoning matters. The buyer and seller must make these provisions where necessary.

LINE INSTRUCTIONS:

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be divided ("split") to provide you your share of each right. Mark the box "Yes" if a division of the water right is required.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, and the water rights are held by the organization, please do not use this form to record a change. Please contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but you do not know the numbers, you may contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. Fill in the name of the current water right holder/claimant.
3. Fill in each name as listed on the conveyance document and complete the current contact information. For water rights, IDWR will update the ownership to the individual(s)/entities listed on the conveyance document. For active adjudication claims, IDWR will update the claimant information to match the conveyance document unless the new claimant provides good cause for the variance.
4. You may have acquired only a portion of the water right(s) held by the seller. If you did not acquire the entire water right/property, please check the appropriate box. Water rights are often conveyed as an appurtenance to the land where they are used, and the conveyance document for the land often does not have specific language regarding the water right. Please read your deed or other conveyance document carefully to be sure. When the conveyance document does not specifically address water rights, it will be assumed that the water rights are to be split proportionate to the amount of land acquired.

Dear Mr. Grover:

In the process of reviewing your claim ~~tpaawwater~~ right I am unable to complete your claim until I correct the location of your place of use and point of diversion. After I reviewed your map and other maps of that area, the Department has reached the conclusion that both the point of diversion and place of use are located in Section 27 of T. 24N, R. 19E. Since Section 27 is irregular in shape and size, it is unnecessary to try to get the nearest quarter-quarter section.

I have filled out a new claim form for you. Please sign the forms, attach the map and have it notarized, then return it to me. If you have any questions contact me at 525-7161 or come to the Idaho Falls Regional Office. Please note the sworn date was 1984.

Re: Change in Ownership for Water Right No: 75-4490

Dear Water Right Holders:

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4920 or debbi.judd@idwr.idaho.gov.
