

## MEMORANDUM

**Date:** June 29, 2021  
**To:** Transfer 84810  
**From:** Michael Holliday  
**Re:** Review & Evaluation of Sufficiency of Information

This transfer adds a point of diversion to the Idaho Irrigation District's Snake River water rights.

**Authority to File:**

Department records show the applicant as the current owner of the rights included in the transfer. The transfer application was signed by Alan Kelsch, who is authorized to sign on behalf of the District.

**Water Right Validity:**

The rights included in this transfer were decreed in the SRBA in 2007. Water District 1 records show regular delivery of these rights. Forfeiture is not an issue.

**Injury to Other Water Rights:**

Other water rights should not be impacted by the change because the quantities authorized to be diverted under the rights will not increase and the total number of acres authorized to be irrigated will not change. The application was advertised and no protests were filed. The Water District 1 Watermaster reviewed the application and indicated that he did not oppose its approval, as long as it contains appropriate conditions for measuring and reporting.

**Enlargement of Use:**

No issues identified.

**Local Public Interest:**

No issues identified.

**Beneficial Use / Conservation of Water Resources:**

No issues identified.

**Effect on Economy the Local Area:**

No issues identified.

**Effect on Agricultural Base of the Local Area:**

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
