SUBSTITUTE PRELIMINARY
ORDER AUTHORIZING
TEMPORARY CHANGE
TC-37-87**

On July 6, 2021, South Valley and/or Galena Ground Water Districts submitted the attached Temporary Change Application to the Department.

On July 12, 2021, the Department issued a Preliminary Order Authorizing Temporary Change TC-37-87. The Department subsequently recognized an error in condition number 11 of that preliminary order.

Rule 760 of the Department's Rules of Procedure (IDAPA 37.01.01.760), in pertinent part, authorizes the Department to withdraw an order and substitute a new order, as follows:

The hearing officer issuing a recommended or preliminary order may modify the recommended or preliminary order on the hearing officer's own motion within fourteen (14) days after issuance of the recommended or preliminary order by withdrawing the recommended or preliminary order and issuing a substitute recommended or preliminary order.

Because of the error in condition number 11, the Department should withdraw the preliminary order issued July 12, 2021, and issue a substitute preliminary order approving the Temporary Change Application with a modified condition number 11.

ORDER

IT IS HEREBY ORDERED that the Preliminary Order Authorizing Temporary Change TC-37-87 issued July 12, 2021, is WITHDRAWN and SUBSTITUTED.

IT IS HEREBY ORDERED that the application is APPROVED subject to the following conditions:

Preliminary Order Withdrawing An Order And Issuing A Substitute Preliminary Order Authorizing Temporary Change

1. Use of water pursuant to this approval will be administered by the watermaster of Water District No. 37.
2. This temporary change approval does not authorize construction of a new well or diversion works as a new point of diversion.
3. Water diverted under this approval shall be injected into Silver Creek or its tributaries and re-diverted at the authorized point(s) of diversion for Little Wood River water rights 37-326, 37-560A, 37-560B, 37-606C, 37-606D, 37-606E, 37-10839, 37-177D, 37-177H, 37-177J, 37-177K, 37-177L, 37-177M, 37-177N, 37-193A, 37-485, 37-20847, 37-21168, 37-21169, 37-21173, 37-21649, 37-21650, and 37-22832.
4. Diversion of water pursuant to this approval is authorized only at the following points of diversion:

POD Location	WMIS ID	Well Name
T1S, R20E, S20, NWNENE	1001202	South Side of North Picabo Road
T1S, R20E, S20, NWNESW	1001596	Tic Toc Well

T1S, R19E, S02, SWNWSW	1001097	Gannet Pivot 2
T1S, R19E, S02, SENWSW	1001317	Gannet Pivot 1
T1S, R19E, S05, Lot 1 SENE	1001162	West of Price Lane and Baseline intersection
T1N, R19E, S28, SENW	1001212	Entrance Well

5. The right holder shall maintain acceptable measuring device(s), including data logger(s), at the authorized points of diversion, points of injection into Silver Creek or its tributaries, and points of redirection in accordance with Department specifications to determine and record the amount of water diverted.
6. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
7. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the consent of such corporation or irrigation district.
8. The quantity of water delivered pursuant to this approval may be subject to reasonable conveyance losses, as determined by the watermaster.

9. This temporary change approval may only be used to provide a replacement water supply to lands or other uses which normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.
10. The use of water pursuant to this approval shall not exceed a total combined diversion rate of 15.89 cubic feet per second (cfs) and a total combined diversion volume of 3,371 acre-feet (af).
11. The use of water right 37-2493 under this approval is limited to 2.00 cfs and not more than 350 af for irrigation. The use of portions of water rights 37-23090, 37-23091, 37-23092, and 37-23093 under this approval is limited in combination to 2.26 cfs and not more than 520 af for irrigation. The use of portions of water rights 37-2576, 37-2649A, 37-2649B, 37-2681, and 37-7644 under this approval is limited in combination to 11.63 cfs and not more than 2501 af for irrigation. Rights 37-2649A, 37-2649B, and 37-7644 when combined are limited in combination to 2.44 cfs and not more than 968 af for irrigation.
12. Irrigation pursuant to this approval shall occur only on 663.4 acres within the authorized place of use for Little Wood River water rights 37-326, 37-560A, 37-560B, 37-606C, 37-606D, 37-606E, 37-10839, 37-177D, 37-177H, 37-177J, 37-177K, 37-177L, 37-177M, 37-177N, 37-193A, 37-485, 37-20847, 37-21168, 37-21169, 37-21173, 37-21649, 37-21650, and 37-22832 for the remainder of the 2021 irrigation season. The rights cannot be moved back to the place of use where they originated for the remainder of this irrigation season.
13. Water shall not be diverted pursuant to this approval when the authorized place of use is not being irrigated.
14. The applicant assumes all risk of curtailment or mitigation should the diversion and use of water under the temporary change approval cause injury to other water rights, constitute an enlargement in use of the original right, be inconsistent with the conservation of water resources within the state of Idaho, or not be in the local public interest.
15. The applicant agrees to hold the Director and the State of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.

16. This temporary change approval expires on October 31, 2021, unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

DATED this 14th day of JULY, 2021.

for Shelley W. Keen
Water Allocation Bureau Chief

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Memorandum in Support of Temporary Transfer to Supplement Little Wood River
Irrigation Water Supply

Water from 155 acres not being irrigated this year will be provided from portions of water rights 37-23090, 37-23091, 37-23092 and 37-23093 not currently being used. The place of use for these 4 water rights has been reshaped this year with over 200 acres not being irrigated that are within the place of use of these 4 water rights. The lands have been identified through the overlay of a sketch map with the current place of use of the water rights, copy attached. A more precise mapping can be prepared of the idle acres if needed as time permits.

About 893 acres covered by ground water rights are not being irrigated this year by John Stevenson. Also, Lakeside Industries is not irrigating 100 acres covered by ground water right 37-2493.

Up to 17 cfs of ground water will be diverted from wells shown on this Temporary Change Application and the map this Memorandum is accompanying. This 17 cfs will be for irrigation of up to 663.4 acres within the permissible place of use shown on the place of use maps accompanying this Application. The additional diversion rate is to account for expected losses in delivering the water to these acres but is less than the combined allowable diversion rate for the rights being transferred.

The permissible places of use for the water being transferred are shown on the attached place of use maps for water rights: 37-326, 37-560A, 37-560B, 37-606C, 37-606D, 37-606E, 37-10839, 37-177D, 37-177H, 37-177J, 37-177K, 37-177L, 37-177M, 37-177N, 37-193A, 37-485, 37-20847, 37-21168, 37-21169, 37-21173, 37-21649, 37-21650 and 37-22832.

The RF shown on the Application, for the wells without a well log, is the response function taken from the support files accompanying Jennifer Sukow's May 17, 2021 Memorandum titled "Predicted hydrologic response in Silver Creek and the Little Wood River to curtailment of groundwater use in 2021, Basin 37 Administrative Proceeding, AA-WRA-2021-001." The response function is the fraction of the diverted water estimated to appear in Silver Creek by the end of September 2021.

7. 104 If the surface water rights appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
8. K01 This right is an enlargement of Right 37-23090, 37-23091 & 37-23092 pursuant to Section 42-1426, Idaho Code.
9. C05 Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.
10. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
11. Total volume of water delivered to the field from this right along with water right nos. 37-23083, 37-23084, 37-23085, 37-23086, 37-23087, 37-23088, 37-23089, 37-23090, 37-23091, 37-23092 and 37-23093 shall not exceed 4626.9 acre-feet per year (which equates to 3.5 acre-feet per acre over the combined permissible places of use for these water rights totaling 1291.6 acres).
12. X27 This right is limited to the irrigation of 174.6 acres within the place of use described above in a single irrigation season.
13. 065 The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.

Conditions of Approval:

1. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District 37.
2. R43 The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
3. R64 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
4. 161 Delivery of this right is subject to the water exchange provisions contained in Bureau of Reclamation contract no. 14-06-W-73, executed October 14, 1954, between the United States of America and American Falls Reservoir District No. 2, as supplemented by Bureau of Reclamation contract no. 14-06-100-6031, executed June 1, 1962, between and among the United States of America, American Falls Reservoir District No. 2, and the Big Wood Canal Company.
5. 004 This right does not grant any right-of-way or easement across the land of another.

6. The ground water recharge use described by this right mitigates for the consumptive use associated with the domestic irrigation use under right 37-23224. If the ground water recharge portion of this right is not deliverable then the amount of water authorized for domestic irrigation use under right 37-23224 that is being mitigated shall be reduced by the same proportion as the reduction to the ground water recharge portion of this right.
7. 920 Pursuant to Idaho Code § 42-234(4), to ensure that other water rights are not injured by the operations of the recharge project authorized by this right, the Director has authority to approve, disapprove, or require alterations in the methods employed to achieve ground water recharge.
8. 921 Pursuant to Idaho Code § 42-234(3), the Director may reduce the amount of water that may be diverted for recharge purposes under this right even though there is sufficient water to supply the entire amount authorized for appropriation under this right.
9. 923 The right holder shall record the daily quantity of water diverted for ground water recharge and shall report the diversion data for the prior calendar year to the Department by February 1 each year. Reporting shall occur in the manner specified by the Department, consistent with Idaho Code § 42-701. To facilitate this reporting requirement, the right holder shall install and maintain a totalizing measuring device approved by the Department at each point of diversion and at each point where water is delivered from the conveyance system into a designated recharge site.
10. R07 Return flow discharged to a subsurface system must be authorized by a separate injection well permit.
11. 106 Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality monitoring and/or permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
12. 020 The diversion and use of water described in Transfer 84423 may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.
13. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
14. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
15. T19 Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.
