Re: Permit No. 65-23703 – 2021 Q2 Reporting Requirement

Dear Mr. Dobson:

Consistent with the *Agreement in Resolution of Protest* executed between you and the Bogus Basin Recreational Association, Inc. ("Bogus Basin") in resolution of your protest to Application for Permit No. 65-23703, and Condition of Approval No. 7 as to Permit No. 65-23703, Bogus Basin is required to report to you, on a quarterly basis and for the first five years that storage occurs under this right, with copies to the Idaho Department of Water Resources: (1) the monthly volume of water diverted from the pond; and (2) the starting and ending pond elevation for the same period.

For Quarter 2 of 2021, the below table demonstrates compliance with the reporting requirement:

	Apr. 2021	May. 2021	June 2021
Volume of Water Diverted from Pond	0	0	0.09 ¹
Starting Pond Elevation for Month	5967'	5971'	5975'
Ending Pond Elevation for Month	5971'	5975'	5975'

The pond is measured at 5975' top elevation and 5930' bottom elevation.

Sincerely,

Chris M. Bromley

c.c. IDWR Western Regional Office
SPF Water Engineering, LLC
William Collins, Esq.

¹ Water pumped from the pond occurred on June 29, 2021 and was for a fire drill. During the fire drill, Bogus Basin pressurized and tested its fire suppression system. Most of the water was drained back into the pond.
