Comments:

1. djones 5/19/2006 Recommendation
Claim asserted change in nature of use from irrigation of 10 acre to commercial use in a dairy. Separate stock water was not claimed. Use of the well was described as operating for 1 hour each day for the use in the dairy operation. A volume of 10.3 AF was calculated and applied to the use and includes both in-barn and stock water uses year round. The change is not an enlargement of the original license, but does extend the use to year round.
