Morning Corey,

I was able to confirm with Mr. Boren that the pond is off stream. There is a gate in place that can be used to control the flow into the pond or shut it off entirely. He also confirmed that whatever storage volume is in the pond can be entirely pumped in a day. We would like to resume processing the application. Thank you for your considerations and let me know if you have any further questions.

Sincerely,
Patrick

Subject: Application for Transfer – Sawtooth Mountain Ranch LLC

Dear Corey,

On behalf of Sawtooth Mountain Ranch LLC, enclosed please find an application for transfer proposing adding a diversion point for water rights 71-6, 71-7 and 71-10190. The additional diversion point will allow water to be diverted into a small irrigation storage pond. The pond has a surface area of one-half acre and average depth of six feet. The 30.40 cfs authorized by these rights is capable to deliver the three acre-feet pond capacity in a 24-hour period. It is understood that water will not be diverted into the pond outside of the authorized season of use.

The enclosed \$2460 check for the filing fee is based on the 30.40 cfs diversion rate. Changes to the place of use or delivery system are not proposed.

Please contact me with any questions.

Sincerely,
